First Turkish Woman Taxi Driver Starts

The old adage, "It's a man's world," is fast becoming obsolete even in Turkey where feminine rights, as such, have only recently begun to receive attention. There are few fields that seem less fitted for women, even in the western world, than of that of taxi-driver yet in Constantinople a young convent-bred girl recently proclaimed her emancipation by taking a chauffeur's test and embarking on a career of taxi-driving.

Mouamer Hanoum was just 18 years of age when she started Constantinople announcing her intention of taking a chauffeur's course. She subsequently passed the severe physical examination and, in a business-like manner asserted that she was prepared to enter the driver's tests. She displayed such unusual skill at the wheel that she completed her course in record time and captured highest honors.

As a full-fledged taxi-chauffeur Miss Mouamer's first consideration was the choice of her vehicle. She selected a Chevrolet six which has been specially equipped for taxi work. She is now happily employed driving passengers around the Turkish capital and enjoying the distinction of being the first woman to enter the chauffeur's profession in that country.

Bradon Township Gains

The population of Bradon Township as shown by a preliminary count of the returns of the Fifteenth Census, taken as of April 1, 1930, is 1,345, as compared with 1,204 on January 1, 1920. There were 10 farms enumerated in this area.

3,363 in Clawson

The population of Clawson Village as shown by a preliminary count of the returns of the Fifteenth Census, taken as of April 1, 1930, is 3,363. The population of this area was not shown separately in 1920.

Insurance or Neglect

WHICH POLICY IS BEST?

To do without fire insurance is as short-sighted as to do without life insurance. Indeed, insurance of all kinds is man's best protection against what he pleases to call either "fate" or "ill-luck."

Edgar S. Pierce

"Everything In Insurance" Phone 9 Farmington

A Crisis—and no Telephone!

This man's wife was ill. One night she took a sudden turn for the worse, and medical attention was needed immediately. He had to leave her, and run to a neighbor's to use the telephone—and the delay was serious.

Perhaps you do not realize the Safety, the Comfort and Convenience the telephone affords. It is an everyday necessity.

MICHIGAN BELL TELEPHONE CO.

The Trade-mark

OLD SILVERSMITHS, in order to help people tell pure silver from cheaper imitations, marked the real thing "sterling."

In a like manner, manufacturers, who stand back of their wares, identify them with trademarks that are your guarantee of quality. By advertising these trade-marks they focus on their products the search-light of attention.

Only good goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation.

That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. His goods must be as advertised.

So, in looking through this paper, remember this: the man who spends his money to invite your consideration of his wares backs up his belief in his goods and leaves the final decision to you.

It pays you to read the advertisements. It pays you to buy advertised products.

Advertising is your protection
