

We'll Take The Knock Out

We don't hanker to go into the prize-ring and "take one on the chin," but if you've got a knock in your motor, we'd like the opportunity to take it out. Never mind how long it's been there, or how much it seems to want to stay. Drive the Old Bus around to us for that "Knock-Out" treatment.

Seven Millionth Car Built By Chevrolet

The seven millionth car built by the Chevrolet Motor Company is on its way to its owner somewhere in America. The epochal car, a coach, rolled off the assembly line Wednesday morning May 28, in the company's huge plant at Flint. The car was the 1,845,938 six-cylinder car produced by Chevrolet since this mode was brought out in January 1929.

Nearly 12 years elapsed after the company's organization before the one millionth car was built, on February 27, 1923, but the second millionth car rolled off the assembly line less than two years and five months later, or July 20, 1925. A year and six months later, on January 13, 1927, the three millionth car was produced. Thereafter less than a year was required to reach each of the succeeding million marks. The four millionth was produced on January 11, 1928, in 363 days; the five millionth, on September 8, 1928, in eight months, three days; the sixth millionth on June 25, 1929, in 9 months, 17 days. The seven millionth mark, just passed, was reached in 10 months and 25 days.

Enterprise Liners produce results.

Best Of Care To Be Given Oakland County Boys At "Y" Summer Camp At Loon Lake

Supervised "Y" Swimming Classes

The old haphazard way of doing things when boys "went camping" years ago, with little or no safety program in mind for the welfare of the youngsters, has become outmoded. At the modern summer camp every precaution is taken to guard the health of the boys, from the time they arrive until tents are struck at the close of the season. "Safety First" is as paramount, as paramount, as in any home or school, or any industrial establishment.

Time was that when boys "went camping" there was a sort of care-free vagabond air about it all, and while that might have been very well in a way, and in keeping with the spirit of the times—nobody knew any better, years ago—such a system of absentee hygiene and sanitation would not be countenanced today. So, the foregoing will be reassuring to the parents and guardians of Oakland County boys who this summer, will share in the fun and physical benefits of the big Y. M. C. A. camp to be held on the shore of Loon Lake, near Hale, Mich.

Care Exercised
To what great extent the sponsors of the camp have gone to insure the good health of the boys

is illustrated by the fact that the well for drinking water and all matters of sanitation will be under the supervision of the State Board of Health. Both the milk and the drinking water will be tested. In addition there will be at all times a student physician in charge, together with a trained nurse, should any boy be found in need of such ministrations. It should also be borne in mind that the boys will be only 50 miles from Bay City, where there are splendid hospitals, and 20 miles from East Tawas, where there are practicing physicians.

But the first and the underlying safety feature of the camp consists of the fact that even before he arrives at the camp every boy must undergo a physical examination to prove that he is fit. Thus the heads of the physical education groups will know to what degree each youngster can participate in the camp athletic activities. Although the boys will, obviously, lead an outdoor life all during the camping period, and sleep in tents, none will have to make his bed on the ground. Wooden floors will be provided in all the tents at the camp proper. On hikes to nearby places of interest, where the program calls for an overnight stay, provided

the weather is fit, the boys will have blankets along heavy enough to make it possible for them to sleep on the sand without danger. These hikes will take the campers to the Ausable and Silver Creek fish hatcheries, the state park at East Tawas, the big power project and other points.

Balanced Diet
One of the important safeguards which will be provided for the boys is that of a balanced diet. It will be strictly scientific and in accordance with the best practices of outdoor living. As for the cost of the camp, it will be \$1 a day, or \$14 for the two weeks, which will be the minimum period for which a boy will be accepted. Arrangements will be made, also, to take care of parents who may wish to visit their boys at the camp, either there or at a nearby hotel. It is hoped that this year will see the erection of a frame dining room.

Naturally swimming will be one of the high lights of camp activities. This part of the program will be strictly supervised. The boys will enter the water only under the direction of a man chosen for the purpose and with other leaders, who will have been organized by him into a group of life guards.

This will also be the occasion for the third quarterly sacramental service which will follow the brief sermon.

In the evening at 8:00, an historical pageant of Methodism will be presented by the young people and their friends. About twenty characters will appear in costume, representing various episodes and historical events in early Methodism.

WEST FARMINGTON

Mrs. Irvin Knapp
Phone 404

Because of her record of high scholarship and character, Miss Luella Howard of West Farmington, a student at Michigan State College, has been invited to join the National Scholastic Honorary Society, Phi Kappa Phi. She already belongs to the College Music Honorary Society, Mu Eta Omicron.

Relatives here have received invitations from Lee Giegler to the graduation exercises at Hartland high school June 11. He was in the senior class at Waller Lake before moving to Hartland.

Frank Robison and family entertained relatives from Farmington and Pontiac, Sunday.

Mr. and Mrs. William Kurtz visited Mr. Reins, who is in the Harper Hospital, Detroit, Saturday.

The eighth grade class of West Farmington School received word

of their success in passing the Oakland County test. Members of the class are: Valasta Regentik, Alice Angell, Francis Angell, Byron Wixom, George Graham. They will meet at Pontiac Thursday to receive their certificates at graduating exercises.

William Knapp is confined to bed on account of illness. Mr. and Mrs. William Tamm returned home Monday from their wedding trip.

Mr. and Mrs. Edward Baker's children the quite ill. Miss Seely is caring for them.

Mr. and Mrs. Arthur Davis called on relatives here, Sunday.

He Will

If King George really wants to hold his American radio fan, he'll have to choose some other hour than 4 a. m.—The Butte Daily Post.

Not Likely

Columbia University educator have described the perfect child but no parents are likely to be so unfortunate as to have him.—The Terre Haute Star.

Not Reliable

With the approach of another campaign the voters should be reminded that the most promising politicians are not always the most promising ones.—The Sioux Falls Daily Argus-Leader.

Special Notice

The increase in the number of customers in this community and the surrounding territory necessitates a re-arrangement of our meter reading dates and in some localities a change in the date when electric bills regularly fall due. Your first bill on this new schedule will be delayed from two to three weeks to affect this change.

We trust this change will not seriously inconvenience you.
