PETITION CIRCULATED ON PAVING OF ROAD

Members of the road committee of the Oakland County Board of Supervisors met at the home of P. J. Miller, Walled Lake Saturday to consider drawing a resolution to be presented to the Board of Supervisors at the June meeting, regarding the matter of a cut-off at Walled Lake to aid traffic congestion.

A petition is being circulated in the Welfare subdivision asking the Road Commissioners not to approve the building of a main highway through the subdivision. Among the objections given are that the residents of this subdivision moved there to have peace and quietness at that another road so close to the other main highway would make the streets unsafe for children. It also cites the objection to dust which two gravel roads would make. They are circulating the petition because it is understood some property holders in this section are advocating the building of the cut-off, to aid traffic congestion through this way.
