Billy Buck and Melvin Witte, who were visiting at the Aldrich home at Torch Lake, returned home on Thursday evening.

Mr. and Mrs. Floyd Hallock spent Monday in Pontiac on bus-

MOST FIRES PREVENTABLE

The majority of fires result from hazards that could have been removed, at the beginning, at a small cost or with a little caution. Hundreds of millions of dollars and thousands of lives are destroyed each year because of ignorance or carelessness.

The unpreventable fire is almost non-existent. The chief causes of conflagrations are defective chimneys and flues, carelessly handled matches and cigarettes, defecting wiring and electrical equipment.

It is better to prevent fires than to extinguish them after they have done their damage. It should be the civic duty of every citizen to see that all possible fire risks under his control are regularly inspected and made safe.

Cooling Cream Pays Dairymen Dividends

Cream which is cooled immediately after being separated is of better quality and should bring a higher price than cream which does not receive this inexpensive attention, according to members of the dairy department at Michigan State College.

Cream can best be cooled by placing it in a deep setting can where the temperature can be kept low. When the next cream is ready for cooling, that in the cooling can can be transferred to the can used for delivering the cream. The cream in the delivery can should be thoroughly stirred as each batch of cream is added. Both cans can be cooled the most easily by setting them in cold, running water.

EXCEL IN HOME

Ability to manage a home and to aid in community development has caused the neighbors of 41 Michigan women to nominate them for this year's class of Master Michigan Farm Homemakers.

Five of the 41 will be selected by a committee to receive that title and the gold pin which is the emblem of the Master Homemakers. The awards will be made at a ceremony held during farm women's week at Michigan State College, July 25 to August 1.

It's So Convenient to Phone Your Order

So many times during the week you find it necessary to purchase something in a hurry, yet you may be too busy to "dress up" and come to the business district. It's so convenient to phone your order and to know that Pauline's with their efficient delivery service, will bring it promptly to your home. Just phone 122 and we will give you personal attention.

- 12—Automatic Cook—oven heat control—chromium plated.

Space will not permit of a detailed description. You must come in and see this A-B to fully realize what a splendid cooking unit it is.

Special Notice

The increase in the number of customers in this community and the surrounding territory necessitates a re-arrangement of our meter reading dates and in some localities a change in the date when electric bills regularly fall due. Your first bill on this new schedule will be delayed from two to three weeks to affect this change.

We trust this change will not seriously inconvenience you.
