

WASHINGTON CELEBRATION
Enthusiastic over the news thus far received from the country regarding preparations that are being made to participate, both in the National Capital and the States, in the 1932 series of celebrations of the two hundredth anniversary of the birth of George Washington—heralded as "the greatest celebration thus far known in history," the associate directors and the members of the George Washington Bicentennial Commission believe that it will break all records.

To Give Kiddies Free State Fair Tickets

The Michigan State Fair management will distribute 500,000 tickets and coupons to school children, newsboys and orphans in the State entitling them to free admission to Michigan's Greatest Outdoor Event on Children's Day Tuesday, September 2.

One hundred thousand coupons will be printed in the Fair's advertisements in newspapers during the summer. These coupons will be placed so as to afford the widest and fairest distribution possible. Four hundred thousand tickets will be given to boys and girls in the Detroit area, where the largest crowds are anticipated.

These passes not only will admit children to all major attractions and exhibits, but also will enable them to enjoy all "Midway" shows, rides, ice cream, sandwiches and soft drinks by paying only five cents for each.

An entertaining program has been arranged for Children's Day. The Boys' and Girls Club contest, always of vital interest to children throughout the State, will be held in the morning. In the afternoon the Boys' Miking Contest will be staged in the Coliseum. The afternoon program also includes harness races on a mile track and that spectacle of spectacles, The Stampede, in which Indians and cowboys match their skill in thrilling tests with each other and with the wildest bronchos and steers in captivity. There will be music throughout the day, and an elaborate fireworks display at night.

DAIRY COWS REQUIRE LARGE WATER SUPPLY

An adequate supply of good water is essential for the successful management of a dairy herd, is the conclusion reached by two Michigan State College men who have made tests of the amount of water consumed by dairy cows in a period of four months.

Milk contains approximately 87 per cent of water so it is apparent that the high producing cow needs a large volume of water for the manufacture of milk as well as to maintain body health.
