# Three Factors

## Decide What Your Automobile Costs

1. HOW MUCH IT COSTS TO MAKE THE CAR
2. HOW MUCH DEALER CHARGES ARE
3. HOW MUCH IT COSTS FOR OPERATION AND UP-KEEP

In all three factors, the FORD Car and the FORD Organization makes it possible for you to have a better car for less money.

Ford manufacturing costs are lower because of the famed Ford efficiency in production. Our dealer-charges are low because of large-volume business. Ford up-keep and operation costs are lower because of simplicity of design, the high quality of material used, and reduction of wear through accuracy in manufacturing.

The FORD is the most satisfactory and the most economical car for you to buy—"A Value Far Above The Price."

### BOY IS SHOT THROUGH HAND BY AN ACCIDENT

Robert Fowler, son of Mr. and Mrs. F. R. Fowler of Wolverine Lake, was shot through the hand with a bullet from a .22 caliber rifle on Friday of last week. The bullet entered the side of the hand and came out through the palm. Robert, with Harold Sherman, a boy living at a neighboring house were hunting frogs and the Fowler lad was keeping in the rear of the other boy to eliminate the possibility of an accident.

Some other children nearby shouted "snake" and the boy with the rifle turned with the gun in readiness to shoot. In turning he stumbled and fell, pulling the trigger of the gun.

The wound was treated by Dr. E. J. Lindsay and several injections.

Uncle Rastus—I does, sister, indeed, but he ain't rushing me like the other creditors is.—Exchange.
