WEST POINT WINS FIRST OF SERIES FROM DE-HO-CO

Carl Goers Allows But Six Hits; Home Team Bunches Safeties To Win

West Point Park baseball followers experienced a thrill which they hoped for, but scarcely expected Sunday afternoon, when their favorites downed Detroit House of Correction in the first of a three-game "grudge" series, 5 to 3.

West Point Park bunched two triples and a double in one big inning to score all five runs. De-Ho-Co also did all its scoring in one inning. Carl Goers held the fast House of Correction team to six hits.

Hammerschmidt's brainy backstopping and throwing out two men attempting to steal in one inning, and Hobbins' great one-handed catch, were features of the game.

Next Sunday the second game of the series will be played, at the De-Ho-Co grounds. The third game of the series will follow a week later, the place to be decided by toss of the coin.

## SEE LITTLE HOPE FOR LOWER PHONE RATE TO REDFORD

Farmington Manager Suggests Zone System May Be Adopted In Future

Little hope for the desired reduction in telephone toll charge between Farmington and Redford is held by city officials, following a report by City Commissioner Leo Gildemeister Monday evening. Mr. Gildemeister reported that he had taken the matter up with R. E. Crowe, manager of the Farmington office.

Mr. Crowe said he was unable to do anything in the matter, according to Commissioner Gildemeister, but expressed a willingness to come to Farmington and talk it over with officials.

The fact that Redford is now a part of the Detroit exchange apparently bars any immediate change.

Mr. Crowe said, according to Mr. Gildemeister, that the telephone company might some day adopt a zone system such as is now used in New York, where the toll charges vary according to distance, in the metropolitan area, but that is undoubtedly a long way in the future.

## School Boards' Joint Action Appears Ended

(Continued from page one) to place one on the Township, would amount to slightly over \$5 a thousand valuation.

Supervisor Coe was asked, how much he thought the Township could pay on the debt this year. He replied that if all the taxes were paid, the Township could undoubtedly pay \$20,000, but if only 40 or 50 per cent of the taxes are paid, as many believe will occur, the Township probably could not pay anything on the debt.

Mr. Utjian said that the portions of Clarenceville district lying in Livonia and Redford Townships are insistent in their demand for payment of the money, or for action to get it. It was estimated that the Clarenceville school, through receipt of primary money amounting to between \$10,000 and \$12,000, could operate until February or March, since primary money can be used for teachers' salaries, but for no other purpose. Mr. Utjian said that the general fund of his district is exhausted, although the district is carrying a temporary loan of \$38,000.
