The Staff of Life

is BREAD. However bread differs greatly. In order that the utmost nourishment may be derived from bread it must be mixed and correctly baked with the proper ingredients. The finest grade flour, the best eggs, and pure butter, together with that finished touch of the professional, are necessary to a delicious flavor and quality.

These standards are rigidly adhered to in the making of our bread, and in the baking of our tasty pastries and other sweets, under the personal supervision of the proprietor, who is personally responsible for his product.
