LUCK

"Luck is ever waiting for something to turn up. Labor, with keen eyes and strong will, will turn up something. Luck lies in bed and wishes the postman would bring him the news of a legacy. Labor turns out at six o'clock and with busy pen or ringing hammer lays the foundation of a competence. Luck whines, Labor whistles. Luck relies on chance. Labor on character."—Richard Cobden.

ELECTRIC COOKING

with the ELECTROCHEF range averages only

64¢

a person per month!

Women have repeatedly expressed surprise at the low cost of cooking with the ELECTROCHEF electric range. Among the many comments from users, this fact stands out: The cooking cost differs but little from other cooking methods. In order to determine EXACTLY what this cost is, The Detroit Edison Company made a study of the electric bills of families using ELECTROCHEF electric cooking. From the five thousand homes now cooking with the ELECTROCHEF, 500 names were chosen—without discrimination—in Detroit and Southeastern Michigan. A study of the electric bills of these 500 families showed an average cost of \$2.94 for a month's cooking. On the basis of 4.2 persons in each family (the national average) this amounts to 64¢ a person per month!

THE ELECTROCHEF RANGE

\$10 Down; \$6 per month. Cash Price \$105 installed, including 7-piece set of Micro-aluminum cooking utensils. Sales under these conditions to Detroit Edison customers only.
