EXAMINATIONS

The majority of High School students were not fortunate enough to be exempted from exams. About last Wednesday you began to worry about how you were going to pass the test. Why not work a little harder all semester, instead of worrying the last minute? Instead you memorize, "Gramming" just before an examination is not beneficial, it does you more harm than good. If you will use the time next semester, spent foolishly this term, really studying, I think you may find next June that you have a "B" average. If you do have to take the test, cramming will not be necessary, for after a thorough review, you will recall what you really learned and not just skipped over during the semester. ped over during the semester.

Extra money for you by rent-ing that vacant room. A want ad in this paper will help you find a tenant.
