The new drug store of which mention has heretofore been made, is an assured fact, the company having been organized this week, and preparations are being made to start the business at an early date.

This business will be located in the south store of the Hawthorn block and the store will be called the Redford Pharmacy. The company is composed of H. C. Burgess, E. F. Monnick, Henry Myer and R. H. Burgess. Mr. Myer is from Detroit, is a registered pharmacist and will be in active charge of the store as manager with R. H. Burgess as secretary and treasurer.

The store will be fitted in the metropolitan fashion with elegant fixtures that are now being made to order. A draft of the interior made by the architect shows a handsome room, well equipped with glass front well cases and counters, glass top display tables and a grand and elaborate soda fountain across the rear end of the room.

Behind the soda fountain will be the prescription and compounding room which will be made a complete laboratory in every respect.

The company purpose to carry not only a very complete stock of drugs and druggists' sundries, but will also handle the other various lines that are usually found in modern drug stores.

It is estimated that the equipment will be ready some time in January, probably between the middle and the end of the month, and as soon as the room can be made ready the stock will be on hand and Redford will have something that has been needed for sometime, a modern, up-to-date drug store.
