**"FLAVOR IS SEALED-IN and food-values are retained in the semi-sealed oven of my ELECTROCHEF electric range"**

**"This is Healthful Cooking!"**

★ A study of one thousand families using the ELECTROCHEF electric range showed a cooking cost of less than one cent a meal a person

"The oven of my Electrochef electric range has no vent—it is semi-sealed. All the nourishing food values are retained, as in a pressure cooker, instead of being lost in steam. Meats and vegetables cook to melting tenderness in their own juices, with their delicious natural flavors sealed-in. Electric cooking requires very little water—half-a-cup is ample for vegetables. Electric cooking is healthful. I am so delighted with my Electrochef electric range that I wouldn't dream of going back to cooking with burning fuels!"
