The wind storm of Friday morning took down several trees in this locality some falling across the highways.

Mr. and Mrs. William Kuriz and daughter Dorothea spent Sunday with Mr. and Mrs. Woddard in Pontiac.

Offers Suggestions To Prevent Drownings

During the past ten years there have been 193 accidental deaths from drowning in Oakland County lakes. According to Dr. John D. Monroe, County Health Commissioner, the observance of a few simple rules would reduce this figure.

Dr. Monroe offers the following suggestions:

Do not go in bathing for at least an hour after eating. Do not enter the water alone. Keep a constant check on all members of your family.

Know the character of the lake bottom—the sudden slipping off into a deep hole has resulted in many drownings.

Allow your body to cool, especially after vigorous exercise, before plunging into the water. Do not overcool your boat and Don't "Rock the Boat".

Try an Enterprise liner. They produce results.

Bellamy Foresaw Radio

in "Musical Telephone" Edward Bellamy's "musical telephone," as described in "Looking Backward—2000-1887," strongly suggested present-day radio programs with some additional details.

"Doctor Letts," he related, "accompanied me to my room when I retired to instruct me as to the adjustment of the musical telephone. He showed me how by turning a screw the volume of music could be made to fill the room or die away to an echo so faint and far that one could scarcely be sure whether he heard or imagined it. If it were desired to play a piece desired to listen to music and the other to sleep, it could be made audible to one and inaudible to the other. He explained that by a clockwork mechanism a person could arrange to be awakened at any hour by music."

On Sunday he heard a server transmitted from an "acoustically prepared chamber." "The voice of a man at the pitch of ordinary conversation addressed us with an effect of proceeding from an invisible person in the room."—Kansas City Times.

Still Hope to Locate Savage King's Treasure

A king's treasure—iron, raw, gold, British and Kruger sovereigns and diamonds—valued at \$2,000,000 lies hidden somewhere in the Bahobela region, it is the buried heart of Lobengula, the Zulu warrior who founded the Matabele nation, challenged the British in 1882 and met with defeat. A Johannesburg business man who has already made six attempts to trace the buried treasure, will make a final attempt. The story of the treasure has been told by John Jacobs, Lobengula's one-time secretary.

Key To Prosperity Is Credit, Executive Says

The first and foremost interest of every American business today is to help bring the country back to a normal economic condition.

It is the belief of many leaders of labor and business that the master key to returning prosperity lies in the sound functioning on an economical basis of the great consumer credit organizations of the country. An official of Universal Credit Company, which is the exclusively Ford financing company, says on this subject:

"As it is the purpose of business to bring buyer and seller together in a transaction which is satisfactory to one and profitable to the other, so it is the function of a consumer credit institution to make it easier for consumers to acquire and use the products of American industry. There is not much question today but that credit and employment are closely interwoven and that the interests of employee, employer and credit company are mutual. The success of each one insures the normal consumption of goods and leads toward regularity of employment. In my opinion, the finance company that is basically sound recognizes an obligation to the purchasing public for developing fair charges, extending courteous treatment and adopting economical practices."

TO WED AT BALLROOM

Jean Goldkette's Edgewater Park ballroom will be the scene of a fashionable public wedding next Wednesday evening, July 8th, when Albert E. Gimour and Florence Younger will be united in marriage. Both live in Redford.

Both the bride and groom have been employed by Edgewater Park for sometime and as the time for their wedding approached they decided that nothing could be more fitting than a wedding in the ballroom.

NO FISHING LICENSE REQUIRED FOR RESIDENTS

Lansing.—Residents of Michigan are not required to have a license to take any species of fish in season, except Brook, Brown and Rainbow trout. Recent legislative discussion concerning a general rod license led many people to the impression that Michigan now has such a license. The bill was not adopted and regulations so far as needs for fishing licenses are concerned remain as they have in the past.

The Fish Division of the Conservation Department has been receiving scores of inquiries as to whether a license is necessary to fish for other species than trout.
