Sales To Post Office By Ford Co. Reach 2,900

The United States Post Office Department recently placed an order with the Washington Branch of the Ford Motor Company for 1,500 motor truck chassis of which 500 will be ¾ ton carrying capacity and 1,000 of 1½ tons carrying capacity. The purchase of the motor equipment was the largest made by a government since the war. With this order Ford sales to the Post Office Department during recent years reached a total of 2,900 units.

The purchase marked another step in the Department's program of building up its fleet of several thousand trucks and also to replace some of the surplus trucks turned over to the Post Office Department by the Army at the close of the war.

Deliveries are to start immediately and continue as rapidly as the bodies contracted for are ready for installation. The completed trucks will then be distributed to some 60 cities throughout the United States.

Large Sum Is Raised For Church By Party

Large crowds attended the garden party given July 4 and 5 by Our Lady of Sorrows Church at the church grounds. A profit of about \$700 was realized for the church, which is constructing an addition to its present building.

Members of the committee expressed themselves as highly pleased with the results, in view of conditions. Although the party was not favored with the best of weather, attendance apparently did not suffer from the factor.

PHOTO SOLICITING SCHEME UNFOLDED BY BUREAU

House to house solicitors are visiting homes offering free enlargements of photographs. The coupon used by one company says:

"This certificate entitles the holder to one portrait 10 x 16 inches in size absolutely free, for the purpose of extending and advertising our business. The only condition is that you purchase the frame for this portrait from us."

The condition is printed in ordinary type and is often overlooked by the customer.

There are many variations of the photo enlargement scheme. The purpose of all of them is to sell frames. The enlargement may be technically free, but complaints in the files of this Bureau prove that it is hard to get back even the original photograph unless one buys a frame.

Do not sign any memorandum for a photograph enlargement until you have read it carefully and understand it. The signed agreement fixes your obligation and not the talk of the agent.—Better Business Bureau of Detroit, Inc.

Just Tramps?

There is a class of people in the world who are known as tramps. They have no home, no purpose in life, no objective, no ambition, no responsibilities. They have no influence in any community—no one has any confidence in them. They are just tramps—ragged, dirty, unkempt. Don't make tramps of your letters by sending them out on poorly printed stationery. You would not care to buy from a man who came to you looking like a tramp. Your customer may feel the same way. Good stationery is as necessary to the man who is selling chickens and hogs as it is to the man who is selling Packard cars. It creates the impression of you with the customer that you want him to have.

It stamps you as business like, alert, and up to date, and creates a confidence in the things you say in the letter and the stuff you have to sell.

The impression your letter creates when the prospect opens it on his desk, speaks louder than the written message it bears. It is your introduction to him. Make it as good as you know how. Have your letterheads printed by experienced, fully-equipped craftsmen.
