## First Americans' Origin

First Americans' Origin

Lost in Mists of Time

Bock through the centuries and the
miltenalums seems to go the origin of
the American aborigine. Yet, as far
back as that may be, tingual tikenesses exist in the languages of Asia
and America. An American missionary
now with the Pueblo Indians in New
Mexico, who had spent some years in
Japan and is a master of eleven languages, was first attracted to the
Pueblos by the similarity of the 'sing'
of their language to that of the Japmeesa. Through uncounted centuries
the languages of the 'two continearies
have been crowling and changing and
growing and the similarity of the 'sing'
of their languages of the two continearies.
Through uncounted centuries
the languages of the two contineary
three been crowling and changing and
growing and the language and
provide a continuation of the language
of the two continearies.

We are learning that what we call the
abortgless of North America are no
recent immigrants from Asia, as we
once supposed, but have been rooted
in the soil for so long that srie-dusts
are becoming very liberal with their
ciphers when they try to compute it.
What geological changes, the rise and
submersion of mountain ranges, the
Glicial age, the physical changes
wrought by volcanic action, etc., have
done to determine the limits of man's
to very meager and incomplete. Scientists are learning that it is usuafe to
have the theories upon conditions as
they exist today. Time is man's own
unvention.—Ext. Louis Globe-Pemeerat.

### WEST FARMINGTON

The Willing Workers of West Farmington had their meeting at Dodge Park at Walled Lake Thursday with about 40 people present. The next meeting will be held at the school house on the first Thursday in September.

first Thursday in September.

Mr. and Mrs. Ellmer French entertained about 50 relatives at a reunion Sunday. A pot luck picnic lunch was served. Guestis were there from Chesaming, Owaso, Lansing, Birmingham, Hontiac and Saginaw.

Mr. and Mrs. Guy Seeler gave a miscellaneous shower Tpesday evening in honor of Mr. and Mrs. Harold Seeley who have just returned from their wedding trip.

nic lunch was served. Guests were there from Chesaming. Owaso, Lansing, Birmingham.

Mr. and Mrs. Guy Seeley gave a miscellaneous shower Theeday evening in honor of Mr. and Mrs. Harold Seeley who have just returned from their wedding trip. They received many gifts. Lunch was served to about fifty relatives and friends. Mr. and Mrs. Seeley will reside on a farm near Novi.

The Graham reunion will be

Novi.

The Graham reunion will be held next Sunday, August 16th. They will meet at James Heliker's store at Union Lake.

Arthur Graham went on a fishing trip with his Sunday School class Saturday. The child'en were accompanied by Mr. T. Parko class teacher.

WISCONSIN OPERATOR STICKS
TO POST AMID FLAMES
Refusing to leave her post in the
burning telephone exchange at
Eagle, Wis, until she had succeeded
in placing calls for assistance to
the towns of Mukwoningo and
Palmyra, Mrs. Louella Anderson,
relief telephone operator, recently
became the heroine of the fire which
burned several buildings in the
business section. Finally she was
carried from the building to safety,
but not until the calls for assistance
had been placed.

Enterprise liners bring results.

A FINER grade of everything for the new or renewed home. Husky materials that absorb all sorts of punishment from hard usage or from the weather and still retain their appearance and ability to protect your comfort. Better homes -always-when our materials guard economy.

## **ELECTROCHEF**-COOKED VEGETABLES

retain ALL their health value!

WAX string beans, for example, are cooked electrically with only from & to & inch of water in the bottom of the utensil! There is no need to use more: the beans are steamcooked, conserving all their natural, nourishing health values. Simmering over gentle electric heat, their natural tenderness is retained. By cooking electrically with a minimum of water, vegetables have a fuller flavor and keep their entire health value. An excess of water, afterwards poured into the sink (the result of cooking on an ordinary stove), deprives the housewife of the very value for which she pays her money.

> Has Your Kitchen Stove These **ELECTROCHEF** Features?

A clean kitchen, a clean stove—no soot, no firmes. Cool cooking—summer and winter. 3. Full flavor oking—sealed-in healthful food values. 4. Exact oven control—no baking disappointments.
