WIDE DIVERSITY SHOWN IN COMMERCIAL ACTIVITY
Lansing, Mich.—A wide diversity of commercial activity is shown by the new corporations which recently have been granted the right to transact business by the Department of State.

A \$50,000,000 heating corporation, a fire alarm manufacturing company, a \$30,000,000 drug-store merger, a finance company and a securities company have been given permission to operate with their main offices in Detroit.

A new hotel in Ann Arbor was incorporated as were automobile sales agencies in River Rouge and Grand Rapids while a \$150,000 farm products company in Pontiac and a 20,000 nursery corporation in Zeeland were authorized to transact business.

REFORESTATION NEEDS OF STATE APPARENT
East Lansing, Sept. 7.—The importance of the proper management of Michigan's forests and of the areas which need reforestation becomes apparent from a study of the report issued by the U. S. Forest Taxation Inquiry that this state has 20,000,000 acres of forest lands.

The greater portion of this land is in the northern part of the State and constitutes more than one-half of the total land area of Michigan.

The Florida legislature refuses to pass a quick divorce bill. Having found through its land boom that too much hurrying often results in a headache, Florida is going to take things deliberately in the future.
