

## "I Rented My Extra Room"

"We've had that spare room right along of course,"—a young Farmington housewife was speaking—"But it just occurred to me that I might be able to rent it and use the rent money to pay part of the grocery bill—so I put a small want-ad in the Enterprise last week and Presto! the room was rented."

Perhaps this is a suggestion to you. There are other items besides the grocery bill that would stand a little bolstering in the budget. That extra room could easily be utilized toward paying the monthly rent, the telephone bill, winter taxes, a new coat, things for the baby—in fact countless things that may be just beyond reach of your present income.

The Farmington Enterprise provides complete coverage in the city and surrounding territory. Bring in your Want-Ad or telephone.
