**all this Hot Water for a Penny**

"The cheapest hot water I've ever enjoyed", is the enthusiastic praise from thousands of users of our Special Heater. The burner actually uses less gas than the small simmering burner of your gas stove. Then too, the heater is insulated like a Thermos Bottle to hold heat for hours. These features together with other exclusive gas saving developments reduce the gas consumption to a figure never before thought possible.

A penny's worth of gas will heat a lot of water when you use this Special Hot Water Heater.

*"A dainty, bright kitchen"*

*... and my ELECTROCHEF will help keep it that way!"*

"I've finished my spring cleaning and my kitchen is spick and span. It's one of the pleasantest rooms in the house... cool and comfortable and bright, with clean walls and woodwork and crisply fresh curtains. My Electrochef—standing in the sunlight by the window—helps to keep it that way.

"Before I bought this modern range, I had to clean the kitchen much more frequently. There was always a certain amount of soiling with my old flame-type stove. But my Electrochef is entirely different. It supplies only pure heat from a glowing wire. There is no smoke or soot to blacken pots and pans, to darken kitchen walls and curtains. My cooking utensils stay bright and shiny after long use on the range.

"My modern Electrochef has taught me what cooking PLEASURE really is—now I wouldn't be without it. I think it's the finest thing in my kitchen!"

Budget **\$10** FIRST PAYMENT—installed, ready to cook. Balance small monthly payments. Sales under these conditions to Detroit Edison customers only.

**THE DETROIT EDISON CO.**

A study of one thousand families using the ELECTROCHEF electric range showed a cooking cost of
