Warren Henderson who formerly lived in Farmington has been
sent to hanage the Macomb
County braich office of the Department hi State at Mt. Clemens.
He operated the Park Garage now
the General Garage in Farmington.

When a shortage occurred in
the accounts of the branch. Henderson, an investigator working
from the Detroit office of the Department of State, was sent to
take charge.

LEGION AUXILIARY

The American Legion Auxiliary will hold a card party and dance on January 26 at the American Legion home.

Make shallow loops for hooked rugs, not more than one fourth inch deep. They should be packed close together. The rug looks less ragged when the loops are not cut. The uncut loops save material and he uncut loops save material : take rugs that wear longer.

The age of the child host is a good general rule for the number of guests at a children's party That is, three guests for a three year old, five guests for a five year old, etc. This prevents over-

Important Function
Correlation, its perhaps the most important function of sedelee, making our multifarious knowledge mentally manageable, enlarging the field of actual and potential experience, and revealing a upty in experiences which are superficially quite distinct.

VACATION TIME AFFECTS NUMBER OF CALLS MADE

Exchange Calls Fall, Toll Calls Increase, During Summer, Telephone Study Shows

August is New Tork's favorite vacation month, and the first and second weeks of timat month the period most favored for vacations. This jatche finding of the New York Telephone Company, which has made a sight of the vacation habits and the period was selected in the period of New Zerker in connection, with an inquity concerning sessonal variations; it has used to have the preference for the first weeks of Augustis shown by the fact that for many jaucessive years the volume of local calls in New York has been at its lowest during it at particular period.

A Million Cells a Day Less

A Million Calls a Day Less

A Million Calls a Day Less

From a relephone standpoint, the
reaction season gets fairly started,
just before Decorate vacation relations before Decorate vacation relephone traffic begins to rise steadilywhile local calls in the city decline.
By the end of June, coincident
with the closing of the schools, and
colleges and the beginning of busimess vacations, when homes are
closed and the exodus to vacation
centers gets under way, telphone
calls have, dropped by some 500,000
aday, to an average of about 5,000
. One

In the week of July 1/ opt-of-town
calls jump to about twice the lovel
of the preceding week. But it is in
August that the long distance office
in New York shows its greatest
activity for the summer, while local
sulls in New York shows its greatest
activity for the summer, while local
average of about 5,000,000, a day,
the summer while local
servant that, mure, of the city people
who spend their vacation in New York
that got to the Catskills than
loa any other resort section. The
large influx of summer visitors at
that time puts a heavy load on the
local switchboard and toll lines,
which means a summer in that vasation land for a large number of
superference operators who are imported from other parts of the state,
in order to assist in taking careof the summer rush.

Labor Day is Biggest Week End

British Ships Bless d

in Fourteeight Century

in Fourteeight Century

So far as we can be certain, the
blessing of Brittie shiply was to vogue
in the Fourteenth century; and according to the monk of \$\frac{1}{8}\$L Denys, this
was done when the dule of Bourbon
dispatched an expediticly to Genean ander the earl of Derby In 1890, R. G.
Skerrett relates, in Grice Genean ander the earl of Derby In 1890, R. G.
Skerrett relates, in Grice Genean and
and intended to Interf sporess; and to
that end the ablps wire blessed by
riests. In July of 14[8, the blishop
of Bangor went- to Sjuthampton to
give a benefiction to this Grace Dieuone of the king's shipl completed in
that port a short whilp before. The
worthy bishop was paid five pounds
for his trouble and the glamor be
added to that occasion. No ressed of
the royal nay was happliced with wine
during the Pifteenth caphury—at least
has the decement of a widerknown British havan bevolan. in Fourteenth Century

Beauty Siep.

The first dim light filtered in through the filmy curtains and struck full upon her chin siran. It crept upward until it covered the deanning cream generossly smotthed upon her face. Still farther stoic, this first revaling beam: It touthed the gain tonic, the special astrugent, the mustic oil, the circulation colument, and finally reached the cylinch darkener. At this point alse stirred and thrust out a bare arm pinkt to the clow with a stirred and thrust out a bare arm pinkt to the clow through the control of the control of the control of the control of the clow through the control of the control of the clow through the clow

Rainbow Close at Hand
Children, who eagerly seek the pot
of gold at the rainbow's end, frequentity have an opportunity to follow their
desires in Eates pipk. Rafnbows,
after the aimost daily incontain aboveers that occur, often jest, one end of
the bow on a neighbor's prorb, and in
one of the nearby pastyres. The little
fillage is situated if a bowl-surrounded by mountains 12,000 and 15,
00 feet high. The arph of a rainbow
is almost within reach, and the nearby
hillidides often her viswed through a
ahimmering veil of colora.

Raft of Ohlors

A new Japanese mithed of systemating suspends the clustoceans from specially prepared rops is anging from a footing raft. Fremerly, systematic provers believed that the most satisfactory means of growing them was in the bed of inlets. The Japanese way, extensive tests, have shown toyus the cyster feater, large, and in far greater quantities! The raft can be mored arround to take administrative weather and side conditions.
