**THOMAS AND GEORGE, Oakland
Baking Co., Pontiac—**
"Starting here 18 years ago with
a small shop, our business grew
steadily and 5 years later we went
into the wholesale baking busi-
ness. We are now supplying all
parts of Oakland County, and due
to the public's appreciation of our
efforts to produce exceptionally
high grade baked goods and their
preference for Oakland County
products our business has held
up very nicely through the depres-
sion period."

**FRANK STOUT, Oakland Machine
and Stamping Co., Pontiac—**
"We have supplied the auto in-
dustry all over the United States
with special machinery, tools and
dies since 1927 when we started
in the manufacturing business
here. Oakland County with its dis-
criminated industry and many nat-
ural assets is bound to forge
ahead."

**M. E. FITZGERALD, Pontiac Pis-
tache Service Co.—**
"Being the oldest parts jobbers
with the only complete shop in
Oakland County, we have enjoyed
serving thousands of car owners.
When buying in Oakland County
it pays to be sure of dependable
established houses rather than
from the man who drives up with
nothing but a car full of merchan-
dise, in most cases without brands
or trade marks. Let this type of
man look for his sales in the place
where he spends his money as he
spends practically none locally."

**H. C. BAILEY, Pontiac Die Tool
and Machine Co.—**
(Member Spanish War Veterans)
"Operating originally as tool
and die manufacturers, we later
got into the production end of the
business, selling a wide field in
this line. We sell to general manu-
facturers. Machine work can, like
many other lines, be done as ef-
ficiently in Oakland County as
anywhere in the world."

**J. W. KENEFICK, Kenefick's One

brake and high pressure greasing
service."

who is president of the organiza-
tion.

**D. I. OLIVER, Oliver Cadillac Co.,
Pontiac—**
"In addition to Cadillac we also
have the Buick Sales and Service

has naturally shown a substantial
increase with the larger field we
are now able to serve through our
wider price range."
