PHILGAS is the modern and economical cooking fuel

Philgas is real gas—the perfect modern fuel—and Philgas Service is an exact duplication of city gas service for homes beyond the gas lines.

when you get breakfast, lunch, or dinner, you want and need the speed of gas. Just turn the burner valve and in-stantly you have full heat—and at your finger tips a hundred variations in tempera-

ture without any limiting "high," "low," or "meditum" adjustments. No fires to build, no abhes to carry, no liquid fuels to handle. You do your cooking work pleasantly and quickly—and have extra times the hundreds of other things you want to do.

With gas cooking, there are no sooted pots or pans, no dirt, no ashes, no smelly liquids. Philgas is as clean as sunlight.

Yet the cost of all these advantages is very small—little more, if any, than the cost of cost of convenient or old-fashioned fuels. See our strikingly new, efficient ranges today and learn how easy it is to have modern cooking in your home:
