An Englishman Tells Of His "Thrilling Week-End"

For many years the Ford has been regarded as a car built and used for purely utilitarian purpose. It was looked upon merely as a good reliable transport, and as such was famous throughout the world. Without in any way relinquishing its hold upon the world's imagination as a utility vehicle, it has of late been forcing itself into the front ranks of sport by successes in the big trials.

In the recent Land's End Trial there were twelve Fords, and eleven of them secured premier awards and one a silver medal. No other maker with six or more cars in the trial succeeded in getting all cars through with each a high percentage of premier awards. Of the twelve cars, ten of them were V8's, a model which is finding favor with a large number of people who have for a long time wanted a car with its remarkable acceleration powers, but have not been able to afford such a luxury until this model was introduced.

Recently I spent a most thrilling week-end on a Ford V8; an astounding experience which no words can adequately describe. I am not referring particularly to its maximum speed; 80 m. p. h. does not interest me one bit, for there are very few roads where it can be indulged in, and the seconds saved are not worth the risk. Personally, I think no man over fifty should ever exceed

sixty, and 90 per cent of the half-centuries should not attempt that. No, I am not a timid old woman. I face up to the fact that a brain which has been working overtime for fifty years was not designed by Nature to think a 100 per cent quicker than the speed at which it worked for its first thirty years or more. One can stretch old elastic too much.

It is the V8 powers of acceleration which make it so fascinating. By gently stroking the accelerator pedal one leaps forward at an astonishing speed; in fact, on a road where there is much traffic one never seems to have time to get into top; life becomes a series of spurts, overtaking other traffic as opportunities present themselves.

I have been on other cars with similar powers, but they have been of the sports type, and acceleration has been synonymous with noise and tremor. The Ford V8 engine never lets you know it is under the bonnet; somehow, one subconsciously places it at the rear, for the car seems to be swept along before a giant hand and not pulled along by machinery.

The gear change is one of the easiest I have tried. The irony of it! An easy change gear box on a car with which one seldom needs to change gear! There are three speeds, and the second is of the silent type—and is silent.

THE CITY OF FARMINGTON

ORDINANCE

Licensing Required

Section 1. No person shall engage or assist as a helper, in the business of hawking, peddling or vending any goods, wares, merchandise, fruits, vegetables or foodstuffs from door to door, or from or upon the streets, alleys and public places, or from any hotel or rooming house within the City of Farmington, either by sample or by taking orders, or otherwise, for delivery then or in the future, without first obtaining a license from the city clerk.

Licensing Provisions

Section 2. The city clerk is hereby authorized to issue a license to any person of good character to engage in the business of hawking, peddling or vending as aforesaid upon the payment of fees as hereinafter set forth. No license thus issued shall be transferred or assigned.

Before, however, any license shall be issued, such applicant shall furnish to the city clerk a true photograph of himself, his address, signature and physical description; and shall obtain and present a health certificate from a competent medical physician residing within the City of Farmington, who shall first have made a complete and thorough physical examination of said applicant to determine whether the applicant is affected with any contagious or infectious disease, which said health certificate shall bear a date not earlier than one year of the date of termination of the license being applied for. If the applicant proposes to sell fruits, vegetables or foodstuffs, he must, before offering same for sale,

bring them to the city hall for inspection, and must obtain a certificate from the city clerk showing that said fruits, vegetables or foodstuffs are fit for human consumption, and that the means of conveying and delivering are sanitary and safe, so as to protect the health of the public. The clerk shall also have the power and authority to require as in his judgment may seem proper in order to determine whether the applicant is a fit and proper person to be given a license having in mind the safety and welfare of the public.

Expiration Date

No license issued hereunder shall extend beyond June 30 of each year following the date of issuance.

To Carry License

To Wear Badge

Section 3. The license granted hereunder shall be in such form as to contain a true photograph of the licensee, his address, signature and his physical description. All licensees shall carry with them, while peddling, the license above described. No licensee shall change, remove or obliterate any entry made upon such license. In addition thereto every such licensee, while engaging in the business, shall wear conspicuously on his outer clothing a badge or emblem, to be furnished by the City clerk, same to be stamped with the date of issue of the licensee's license, and the term for which same has been issued. Failure to conspicuously and constantly exhibit said badge or emblem while engaged in said business in the city shall be sufficient cause for the suspension or revocation of such license by the City clerk.

To Obey Traffic Rules

Section 4. Licensees under this ordinance shall comply with all traffic rules and regulations in effect in the city, and licensees shall not remain standing at one place on any of the streets, alleys or public places for a longer period than five minutes while engaged in said business.

Standing on Corners, etc., Prohibited

Section 5. It shall be unlawful for any such licensee to stand or be on any public street, alley or public place, or in any building or place of business abutting on any street, alley or public place, and to cry out or make any noise of any kind whatsoever so as to attract persons or induce persons to congregate on any public sidewalk, street, alley, or public place so as to tend to obstruct traffic, whether pedestrian or vehicular. It shall also be unlawful to call out or make any noise of any kind whatsoever with a view of attracting persons to buy the goods which said licensee has for sale.

To Exhibit License and Badge

Section 6. It shall be the duty of every such licensee to exhibit the said license and badge or emblem to any policeman or other authorized person when requested to do so; and failure to show same upon request shall be deemed a violation of this ordinance.

Persons Exempted from Provisions of Ordinance

Section 7. It is not the intent of this ordinance to prohibit the sale by mechanics and artisans of products of their own manufacture; nor the sale by farmers of their own products, either produced by themselves or by their regular farm employees; nor any person who is soliciting for goods, wares, merchandise and foodstuffs who has first obtained a license pursuant to Act 658 of Public Acts of 1921; but all such persons must furnish satisfactory proof to the city clerk that they are the one and same persons that they represent themselves to be, and they must agree to comply with all terms and conditions of this ordinance, and upon so doing the city clerk shall furnish a license fee of charge.

This ordinance is not intended to affect any person who is soliciting orders for goods, wares, merchandise and foodstuffs from retail or wholesale dealers, nor to persons selling or offering for sale books, papers or magazines; nor to any person engaged in interstate commerce. Neither is it intended to apply to any vendor of wares, merchandise or foodstuffs who is regularly established in the business of selling the same wares, merchandise and foodstuffs at a definite business location in the city.

May Be Suspended or Evoked for Cause

Section 8. Any license granted under this ordinance shall be accepted upon the express condition that it may be suspended without notice by the City Commissioners whenever in their judgment it is for the best interests of the community so to do, having in mind the welfare, safety and

health of the community; and same may be revoked by the city clerk after giving the licensee reasonable notice and opportunity to be heard.

To Use Standard Weights And Measures

Section 9. It shall be unlawful for any licensee to sell or deliver any goods, wares, merchandise and foodstuffs which are ordinarily sold by weight or measure, by the use of any other than standard weight or measure.

THE CLEANEST COOKING METHOD ever devised!

AN ELECTRIC range is the cleanest cooking method yet devised. The reason is obvious. A glowing wire furnishes all the heat—pure heat—without smoke or soot or fumes. There is no burning of fuel to leave a black deposit on pots and pans, or to darken kitchen walls and curtains. Electric heat is actually as clean as sunlight. Here is a stove that you can really keep clean. Your electric range will continue to look new, day after day.

Many thousand electric range owners in Detroit and vicinity will tell you how clean electric cooking is. And once YOU have enjoyed the deliciousness and healthfulness of electric cooking, you will never again go back to any other kind.

Even the cheaper cuts of meats cook to melting tenderness, and there is little shrinkage of weight. This adds to economy and preserves the precious natural minerals of foods instead of losing them in steam. Vegetables cook in their own juices. And best of all you can cook your dinner while you're out for the afternoon!
