ATKINSON CRITICIZES NEGLECT OF SCHOOL BY NOVI RESIDENTS

A. C. Atkinson, president of the Novi school district No. 8, has addressed the following letter to the Enterprise in regard to the lack of interest shown by the residents of his district in the affairs of the school:

"I was much disappointed that only 14 attended the Annual School meeting. There should have been over 100, if parents, taxpayers and all others interested in had taken the interest I feel they should.

"Our forefathers wisely said: 'Religion, Morality and Education being necessary for good government, the means for Education shall be forever encouraged.' At the present time we seem to be falling short of providing these means. Our recent legislative acts seem to be very indefinite as to how we are going to get sufficient means for maintaining our present school system. They have definitely provided for means for road-building, maintenance, etc., but 'the very life of our nation, the schools' are left over after these unimportant projects are taken care of.

At the close of business, June 30, 1933, school district No. 8 was carrying an amount of over \$20,000.00 in delinquent taxes. Could we have had this money we would have been able to pay up all our defaulted bonds and interest and could have operated our school on 5 mills less than what we are compelled to spend the coming year. Notwithstanding that our legislature provided means for extending the time of paying these delinquent taxes I appeal to our people to do all in their power to pay their delinquent SCHOOL tax in preference to any other, thus enabling your Board to meet current expenses as fixed charges and cut down the spread for next year."

A. C. ATKINSON,
President.

Annual School Report

Report Annual Meeting, Novi District No. 8, Thursday, July 10, 1933.

Annual School meeting was called to order at 8:30 p. m. by President Atkinson. Secretary Mairs read the proceedings of the last annual meeting and on motion by Frank Martin, supported by A. L. Hill, the report was accepted and approved.

Treasurer Munro read his financial report which was approved on motion of Martin, supported by Hill.

President Atkinson read the proposed budget for the ensuing year, explaining the necessity of adding enough on to the amount allocated by the State Tax Commission to make 13 mills, which would, if paid, take care of the current expenses of the year but would not take care of delinquent interest and principal on bonds.

On motion by F. D. Clark, supported by Ed Grace the Board of Education was instructed to pay tuition for all 11th and 12th grade pupils desiring to enter other High Schools.

Moved by Frank Martin, supported by Phillip Taylor, that the Board of Education be instructed to send pupils to the High School that quotes the most favorable rates and that the maximum amount paid be \$60.00. Carried.

The number of months of school for the ensuing year was left for the Board of Education to decide.

Chairman Atkinson then called for nominations for one trustee for full term. Mr. Mairs being the only one nominated, it was regularly moved and supported that the rules be suspended and the secretary be instructed to cast the entire ballot for Mr. Mairs. Carried.

Nomination for one trustee for the term of 3 years was called for; J. O. Munro being the only one nominated a motion was offered to suspend the rules and the secretary be instructed to cast a unanimous ballot for Munro. Motion prevailed.

No further business appearing, the meeting was adjourned.

WM. MAIRS, Secretary.

MICHIGAN BELL TELEPHONE CO.

SIX PEOPLE EXPRESS THEIR OPINIONS ON THE VALUE OF TELEPHONE SERVICE

Each day, a metropolitan newspaper asks several persons a question and publishes their answers. Recently, six were asked, "Do you consider a telephone in your home a luxury or a necessity?" Each answered, "It's a necessity!"

A MERCHANT said: "The other day our youngster had an accident, and my wife immediately called a doctor and me. That one call was worth the cost of the service for a year."

A MUSICIAN said: "I get many contracts over my telephone that I would not get otherwise."

A SALESMAN said that he could economize on many things, but not on his telephone, as in emergencies it might be worth its cost for years.

ANOTHER SALESMAN replied that he and his wife cancelled their telephone service to save money, but after a month of inconvenience decided a telephone was an absolute necessity.

A MANUFACTURER referred to the value of a telephone in emergencies.

A MANAGER regarded the telephone as worth more to his wife than its cost, by saving her time and trouble.
