SOMEONE IS ABOUT TO GET A JOB

A job is open! The employment manager runs through his list of qualified men and considers several. One of them has a telephone and can be reached quickly. He gets first chance.

Other things being equal, the applicant or former employee who can be reached by telephone is quite likely to get first call.

50 PERSONS ATTEND ANNUAL REUNION OF NICHOLS SCHOOL

Fifty former pupils, teachers and friends attended the annual reunion of the Nichols school in North Farmington Saturday. Dinner was followed by a program and general social period. W. H. Wiens, who taught at the school in 1870-71, was the oldest person present. He drove from Coldwater to attend the school reunion and the reunion of the 22nd Michigan P. A. R. reunion which was held in Pontiac Thursday.

Mrs. Florence Wixom, Bachelor of Detroit, and Mrs. Florence Conoley Becker of Pontiac, pupils in the school before 1860, were present at the event. Floyd Nichols was re-elected president of the group and Mrs. Arthur Coe was re-elected secretary.

Among the interesting features of the afternoon was a poem read by its author, Mrs. Beulah Drouillard Davis, a former pupil in the school.

A new line of cosmetics is being introduced this week by the F. L. Cook and Co. clothing store. The new line includes face powders, creams, rouge and lotions. The entire group of articles is being sold at a standard price of 50 cents per article.

Wins Golden-Ply Silvertown Agency

Local Firm Named by Goodrich to Sell their New LIFE-SAVING TIRE . . .

THE B. F. Goodrich Rubber Company has appointed us dealers for the new Goodrich Safety Silvertown Tire. This is the tire with the Life-Saver Golden Ply, the remarkable Goodrich invention that prevents blowouts.

In our opinion this new blowout-preventing tire is the biggest contribution to motoring safety since the introduction of the balloon tire.

Meets Today's Demands
It is a most timely development, coming as it does at a time when smooth, banked highways and high speed motors place a terrific strain on tires and make the hazard of blow-outs infinitely greater.

Today's high speeds—40, 50, 60 and 70 miles an hour generate terrific heat inside your tires. This heat causes rubber and fabric to separate. A blister starts . . . and grows . . . bigger and bigger—until BANG—a blow-out! And what happens then isn't pleasant to think about.

Thus blisters don't form inside the tire. Blow-outs are prevented by overcoming their CAUSE.

Safest Anti-Skid Tread
The new Goodrich Safety Silvertown is safer from skidding, too. Its squeegee drying action gives your car extra road grip, and reduces the danger of skidding to a minimum.

The best part of this good news is that the new Silvertown, with the Life-Saver Golden Ply, costs not a single penny more than any standard tire. So playsafe. Come in today. Take advantage of our new low prices.

FREE
This handsome Safety League Emblem with red crystal reflector to protect you if your tail light goes out. No obligation—nothing to buy. Just join the Silvertown Safety League at our store.

How New Invention Prevents Blow-Outs
The new Goodrich Life-Saver Golden Ply is designed to overcome this hazard. It resists the most terrific, lateral heat. Rubber and fabric don't separate.
