MICHIGAN BELL TELEPHONE CO.

A STATEMENT BY MISS GRACE J. GRAVES

Miss Graves, who is head of the Employment Bureau of the Lucid Private Secretarial School, in Grand Rapids, relies entirely on the telephone in contacting both employers and applicants. She says:

"We use the telephone exclusively in placing applicants. And we will not accept an application that does not give a telephone number."

Other things being equal, the applicant for employment who can be reached quickly and easily by telephone is likely to be the first called to work. Telephone service pays its way. Order a telephone today. Installation will be made promptly.

A BURNING MATCH WON'T SELL

Your Merchandise!

A BURNING MATCH in a dark store will give a certain amount of light . . . but no modern merchant would think of trying to show merchandise to a customer by means of lighted matches. Yet many merchants do not realize the power of better lighting in show windows and show cases in increasing sales. Here are two interesting tests that show results:

(1) A display of dry goods in the show window of a retail store was lighted to an intensity of 15. Only 11 per cent of the people on the street paused to look at the window. The lighting was raised to an intensity of 100, and 21 per cent of the people stopped to look at the same display. BETTER LIGHTING PRACTICALLY DOUBLED THE DRAWING POWER OF THE SHOW WINDOW!

(2) In the interior of a store with a general illumination intensity of about 3, a show case was dark. Only 14 per cent of the passersby stopped to look at the display. When an illumination intensity of 35 was supplied within the show case, 30 per cent of the people stopped to look. GOOD LIGHTING MORE THAN DOUBLED THE ATTRACTION VALUE OF THE SHOW CASES!

Detroit Edison engineers will measure your store lighting without charge, and tell you definitely how it compares with standard present-day lighting. It will pay you to KNOW whether your illumination is of the desired quality. This is part of your service and there is no obligation. Call Randolph 2100 and ask for the Lighting Division.

THE DETROIT EDISON CO.
