MICHIGAN BELL TELEPHONE CO.

IT COSTS ALMOST AS MUCH NOT TO HAVE A TELEPHONE

Add up the monthly cost to you of messages that
must be sent... of calls you make at public
telephones... of time, carfare, driving and parking
that a telephone at home would save.

Then consider the advantage of being able to
receive messages from friends, relatives and
business associates, and invitations to social
affairs you would regret missing.

Remember, too, that in case of fire, sickness,
accident or other emergency, just one telephone
call for aid may be worth the cost of the service
for a lifetime.

You can order a telephone from any Telephone
Business Office. Installation will be made promptly.

Don't let your girl or boy's vision be im-
perilled by lack of care, or absence of eye-
tests. A test in time may save them from
eye-strain now, and even from losing sight
entirely in later years.

Bring them here for an examination.
It may mean everything to them in later
years.

WAS YOUR STOVE MODERN

when pompadors were in style?

Perhaps you don't realize that stoves have changed as
much as women's styles that a modern range today will
do things old-fashioned stoves would never do. For
example, a modern electric range makes the scouring of
pots and pans unnecessary; there is no smoke or soot to
blacken utensils or soil kitchen walls and curtains. An
electric range supplies only PURE HEAT from a glow-
ing wire—heat as clean as sunlight. A modern range,
too, cooks practically without water. Half-a-cup is ample
for vegetables, and the precious minerals and food values
that you pay for are retained, instead of being lost in
steam or poured down the sink when the cooking is
finished. And finally, electric cooking SEALS-IN flavor,
meats and vegetables cook to melting tenderness in their
own juices. There is practically no shrinkage in roasts,
and foods cooked electrically have a flavor surpassingly
delicious—a natural flavor achieved by no other cooking
method. Foods not only taste better but are more healthful.

You can own a new Waldorf-Electrochef electric range
for \$89.50, installed and ready to cook.

Modernize your entire kitchen by installing a new
electric range.
