**-YOU TO BE BOTH
JUDGE and JURY**

THE belief that the cost of Electric Cooking is high keeps many families from enjoying Electric Cooking.

Electric Cooking is not expensive when you consider what you get. To PROVE it to your own satisfaction, we are offering for a limited time this new trial plan. We want you to use an electric range in your own kitchen . . . to actually cook on it for a period of time and learn how satisfactory it is. We will install the stove *without initial charge*, and let you use it for *six months*, removing it at our expense if you do not like it.

During the trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the Waldorf electric range or \$1.25 for the Electrochef. If you decide that you do not want the stove, it will be removed without further expense to you. If you decide to keep the stove, your monthly payments will be applied toward the purchase price.

Electric cooking is NOT expensive. WE WANT YOU TO SEE JUST HOW MUCH IT REALLY COSTS. We want you to try the range for yourself, to enjoy its advantages in your own kitchen. Once you have known the delicious flavor it imparts to foods, its cleanliness, its coolness and its convenience, we are sure that you will want to continue its use.

Applications for ranges will be filled in the order that they are received. If you are interested, send in your request as early as you conveniently can, to avoid delay in delivery. Call any Detroit Edison office.

(Single residences and multiple family dwellings up to and including four families are eligible for this offer.)

Enjoy these Advantages of Electric Cooking!

CLEAN. Electric heat is as clean as sunlight. Imagine a stove that supplies only **PURE** heat from a glowing wire! There is no smoke or soot to blacken utensils or curtains.

WATERLESS COOKING. With your electric range you use no water for roasts and vegetables.

MODERN. Unusually attractive in design, these modern electric ranges do much to

ELECTRIC COOKING CO.

brighten and add a feeling of
your entire kitchen. They are finished in
smooth, lustrous porcelain and sparkling
metal—features of special importance to
the housewife who likes to keep things clean.

HEALTHFUL. Electric cooking seals-in nourishing juices and natural elements in meats and vegetables. Important minerals instead of being lost in steam.

TS LESS THAN ONE CEN

tables, and there is no flavor-laden residue of water to be poured down the sink when the cooking is finished.

FULL FLAVORED. Electric cooking has a deliciously different flavor—a natural taste. Meats and vegetables cook

to melting tenderness in their own juices and cakes are light and fine-grained, with a uniform, even texture. You must TASTE the golden, fluffy biscuits and flaky pastries that one can bake in an electric oven!

PER MEAL PER PERSON

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
