AN EXTRA TELEPHONE UPSTAIRS MAKES AN IDEAL GIFT

A TELEPHONE in your bedroom provides greater telephone protection, convenience and privacy.

GREATER PROTECTION, because it brings telephone service within arm's reach if firemen, doctor or police must be called instantly.

GREATER CONVENIENCE, because it makes it unnecessary to run downstairs to place or answer calls.

GREATER PRIVACY, because it sometimes is undesirable or embarrassing to make or answer calls in the presence of guests.

An extension telephone costs less than 3c a day. Installation will be made at any time you specify.

The higher men climb, the longer their working day. And any young man with a streak of idleness in him may better make up his mind at the beginning that mediocrity will be his lot. Without immense, sustained effort, he will not climb high. And even though fortune or chance were to fit him high, he would not stay there, or to keep at the top is harder almost than to get there. There are no office hours for leaders.—Cardinal Gibbons.

A little known sidelight on the occupation of Paul Revere, Boston's famous silversmith and horseman, is that he made and sold false teeth.

With all the draw backs life is still a splendid adventure.

THEN DECIDE FOR YOURSELF WHETHER YOU WANT

Electric Cooking..

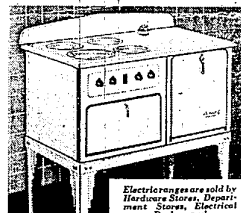

WE WANT to prove to you that electric cooking is not expensive. We want you to use an electric range in your own kitchen, to let you see for yourself how desirable it is. For this reason we are offering a new trial plan. We will install an electric range without initial charge, let you use it for six months, and remove it at our expense if you do not like it.

During the trial period, you pay for the service, as registered by your meter, plus a monthly charge of \$1 for the Waltham electric range (shown below) or \$1.25 for the Electrochef. If you decide to keep the range, your monthly payments will be applied toward the purchase price.

If you decide that you do not want it, the range will be removed at our expense.

And what better time to begin enjoying electric cooking than with your Thanksgiving meal? No matter what your preference—roast chicken, turkey or duck—an electric oven cooks it to appetizing perfection, crisply brown outside and meltingly tender and full-flavored within. Mild electric heat penetrates evenly to all parts of the fowl, and the dressing is fluffy, tender and fragrant, thoroughly seasoning the meat. Little water is used, and the natural juices of the meat make a concentrated liquor for the gravy.

Send in your application for a trial range today.

Electric ranges are sold by Hardware Stores, Department Stores, Electrical Dealers and
