Expenses of the occasion will be contributed, in recognition of the many services of the band to the community throughout the year. The Exchange Club Wednesday day voted a contribution of \$5 to the occasion.

WE MAKE 'EM FAITHFUL

We can't change the ways of an erring mate. We can't make 'em be true when they don't want to. We aren't affection-doctors.

But if you've got a WATCH that isn't right, just bring it in to us! The error of its ways will be quickly mended. And the perfection of our service with the modesty of our charge, will make you happy "forever after."

One Big Family

Consider your household. You may be two, half a dozen, or a dozen, but each works for the good of all, if it's a loyal family, and if it hopes to get somewhere.

Consider your town. We're just one household multiplied a lot of times, and every one of us MUST work for the good of all, or none of us will get anywhere. So support your home institutions.

UNITED STATES EXPORTS OF HOG PRODUCTS

(Each hog represents 1,000,000 head.)

1914

1919

1925

1930

1933*

* Estimated

Under the stimulus of the World War, foreign purchases of our hog products jumped to the equivalent of about seventeen million hogs. But since the war, our exports have dropped back again to the equivalent of about four million hogs. This decline has been due to a rapid restoration of hog production in European countries since the war, particularly in Germany and Denmark, and more recently because of tariffs and quotas which limit the quantity of imports.

Meanwhile, hog production in the United States has continued to increase at about the same rate as the population. Consequently, the products no longer shipped abroad have become excess products on the home market and have driven down hog prices. Some adjustment to this changed demand must be made if hog prices are to be raised to a more favorable level. The corn-hog production-control program, now being offered by the Agricultural Adjustment Administration, will help farmers bring about this necessary better balance.

THE accompanying graph constitutes a very plain explanation of one reason why the prices for corn and hogs have been so low the last few years. The main reason is the severe decline in the export demand for United States hog products since the 1919 peak.

In 1910-14, European nations took the equivalent of nearly six million hogs. This was only a moderate export level, but the total United States hog production at that time was in good balance with the combined domestic and foreign demand.
