FORD V-8 WINS AGAIN

taking first place in Los Angeles Road Race and the next nine places.

A STRICTLY STOCK CAR RACE

THE FORD V-8 WINS AGAIN! Again it comes in first in a grueling road race. Again it proves the superior performance and reliability of its V-8 engine.

On August 26, 1933, the Ford V-8 won the 200-mile Elgin Road Race for stock cars. Sunday, February 18, it won the 250-mile Invitational Gilmore Trophy Road Race at Los Angeles.

This race was open "to any stock car in America with a piston displacement of 300 inches and under." That meant every low-price car and practically every medium-price car could enter.

But they couldn't match Ford V-8 performance. It left them all far behind and finished the 250 miles in 4 hours and 14 seconds or an average speed of more than 62 miles an hour.

Dairy Farmers Will Get More For Milk

(Continued from page one)
in the old code which was \$1.85 per cwt. for fluid milk sales, less deductions for equalizing, hauling, pool and dues. (This price gave Farmington producers a net price for base milk of 95¢ test of from \$1.29 to \$1.39 per cwt., depending on local hauling rates.)

Seek \$2.10 Price

This part of the agreement fixing this price, was rejected by the sales committee. A sub-committee of seven was selected to fix on a price which would be requested of the administration. This sub-committee agreed on a price of \$2.10 for base milk. After some discussion this report was adopted with the recommendation that a committee of producers be sent to Washington to try and obtain this higher price.

On Monday another meeting of the sales committee was held. At the meeting in Detroit, which this group of producers who had made the trip to Washington including John Adams, Bert Williams and Walter Cook, all of Oakland County, reported on what they had been able to accomplish. They together with E. F. Beach and Clarence E. Gittins, Attorney, spent several days in Washington and after many conferences with government officials had been able to obtain a small increase over the price provided for at first. This raise is expected to mean approximately a 10 per cent advance over the present price.

Oppose Approval

This sales committee meeting was attended by several hundred producers the majority of whom seemed to favor the rejection of this agreement and the demanding of a price which would return the cost of production to the former, but the sales committee, guided by the statements of Mr. Adams, Mr. Cook and Mr. Williams, so that in their judgment this was the very best increase in price which the administration would sanction, voted 40 to 4 to accept their recommendation.

This is the present standing of the situation. The dealers who sell milk will undoubtedly demand a hearing before the administration authorities but it is not anticipated that any substantial changes will be made affecting the price, and it is hoped that the agreement may go into effect by March 1.

Mr. and Mrs. Granville Post of Royal Oak called at the home of Mr. and Mrs. Elbert Walling Thursday afternoon.
