

LETTERS TO
THE EDITOR

Letters To The Editor MUST be signed with the name of the person writing the letter. An assumed name may also be used, but the writer's real name will be withheld from publication upon request, but no letter without the true name of the writer will be published. Please write on one side.

Thanks Driver

To the Editor:

The writer of this letter wishes to thank the unknown driver of the Truck who picked up the children of School District No. 6 on a very cold morning recently and took them to school, following a breakdown of the bus and instructions to walk to school by a member of the Board of said district.

This kind act will be appreciated when it is realized that most of the children were from 5 to 8 years of age and were walking from a point near Ten mile and Middle Belt road to the William Grace school located east of Middle Belt Road on old Farmington road, therefore, I would say in the language of Walter Winchell, "an orchid to you Mr. Truck Driver," for your kindness.

A Parent.

Goodwill Industries
Give Work and Wages

The Goodwill Industries of Detroit provides work and wages to more than 3,000 handicapped and needy people every year. How does it operate?

Discarded clothing, shoes, furniture, magazines, books and papers contributed by filling paper bags, are the materials. The needy are put to work sorting and reconditioning, making new goods out of old.

Will the people of Farmington help? Just fill the bags that are given to you and a uniformed driver of the Goodwill Industries will call the second Monday in every month.

Please call Mrs. Burrows, Phone 182 if bags are wanted.

CLINIC FOR TEETH

About twelve school children were taken to the Clinic at St. Joseph's Hospital at Pontiac Saturday for inspection of the teeth. This Clinic is free and it is expected that in the near future each parent will be approached and arrangements made for all of the children to be taken to Pontiac for care of the teeth.

Two Fires At Once;
Pails Come into Play

The fire department was called into service Sunday due to several fires in and around Farmington. The roof of the Ernest Drake residence on Power Avenue burned, causing considerable damage. The fire engine was putting out a fire on Middlebelt Road between Levee and Eight Mile Roads and the Drake family carried pails of water and extinguished the flames before firemen could return to the city.

A grass fire on the Ulysses Grace farm at Grand River, the Cut-off caused concern as it burned close to a barn. However the fire was put out before any damage was done.

CWA Work At School
Is Near Completion

The work of decorating and repairing the High School and Grace School buildings is expected to be completed the end of the week Superintendent Dalrymple reports. Three rooms in the grade school building are to be decorated and when those are finished, the C. W. A. allotment of work will have been completed.

Each room has been given two coats of paint, the woodwork has been thoroughly cleaned and all loose plaster has been replaced. Harley Schroeder is in charge of the work and the men have been working 3 days each week.

Quilt Show Is Being
Planned By M. E. Aid

The M. E. Ladies Aid will hold a quilt show and silver tea in the Community Hall Friday afternoon and evening, April 13.

Ribbons will be awarded on piece quilts, new, piece quilts, old, applied quilts, new, appliqued quilts old, crocheted and knitted spreads, coverlets old, silk quilts old, pieced and appliqued tops.

The contests will be open to all. Judges will be: Miss Edith Crumb of the Detroit News staff, Mrs. Frank Milward and Mrs. E. A. Christain of Pontiac. Leave quilts with Mrs. William Richardson of 3313 Thomas Street or at the Community Hall before 10:00 Friday morning.

The idea seems to be prevalent among the parents of students of Farmington High School, taking the chemistry course this year, that a charge of \$1 is made each month.

This rumor is entirely unfounded. A \$1 deposit is required at the beginning of the term to cover any breakage which might occur. This \$1 is kept at the school and if the student does not break any of the instruments during the term, the \$1 is refunded to them. There is no charge of \$1 per month for remaining in the chemistry class.

Auction Sale

I will sell at Public Auction on what is known as the Harry German Farm, 1 1/2 miles from Northville on East Base Line Road, on FRIDAY, APRIL 6

DRIVE IS PLANNED
TO AID CRIPPLED
CHILDREN FUND

The Michigan Society for Crippled Children, in collaboration with the International Society, is about to launch an intensive campaign to further the work for crippled children.

The campaign will be in charge of County Committees throughout the State, and will be conducted during the two weeks preceding Easter. The purposes are to make everyone familiar with the problem incident to the care, treatment, education, and placement of crippled children, as well as the prevention of crippling conditions, and to secure, through the sale of Easter White Cross Seals at one penny each, to as many people as possible, sufficient funds with which to carry on the work.

The co-operation of Judges of Probate, County Welfare Agents, County Commissioners of Schools, Superintendents of Schools, members of Rotary and other service clubs, Parent-Teacher Associations, the American Legion, the King's Daughters' Women's Clubs, school groups, Boy Scouts, Girl Scouts and other organizations is being invited, and a thorough educational campaign will be conducted.

The idea of breaking away from the old plan of securing a comparatively few larger contributions and popularizing the movement by acquainting everybody with it is the outstanding thing in the campaign.

A Ford V-8 sedan, owned by Hyman Levinson, was stolen in Detroit Sunday afternoon, and found by police Monday morning, but taken again before the city tow-car arrived to haul it to the garage. It is still missing.

Adv.
REX AND DOW'S
SPRAY MATERIALS

Rex and Dow have been the standard spray material for years. Other companies have tried for years to copy their materials, but have not to date been able to put out materials just like them. You have to pay more for them.

All spray materials are good, but some are better than others. The Rex plant at Toledo and the Dow Lead plant at Midland, Mich., do not tell you they have the largest plants in the world. But we do claim they put out good materials. You may claim after using them that they are the best but we sell them on past results. We do not claim you can control codling moth and fungus with less material or less spraying. Use spray material for the best results. It pays to spray when you should. If you have already placed your order for this season, and run short, we carry materials in stock at no extra cost. And we meet all fair competition.

Compare these materials with any others. Nurexform and Dow Lead arsenate, Dow and Rex lime sulphur in tank cars, drums, 60 cents extra. Kleenup oil, Black leaf 40 nicotine, Dow dry lime sulphur, Kopper's flotation sulphur for summer spraying. Ask the M. S. C. what they have found out about flotation sulphur.

If interested, phone Ralph F. Foreman, collect, at Northville 7112F31.

Terraplane and Hudson engines develop more per cubic inch of displacement than any production automobile engines in America. They are exceeded in this respect only by racing and super-charged motors.
