

LETTERS TO THE EDITOR

Letters to The Editor must be signed with the name of the person writing the letter. An assumed name may also be used and the writer's real name will be withheld from publication upon request, but no letter without the true name of the writer will be published. Please write on one side.

Answers "Parent"

To the Editor:

This is in answer to a recent letter which appeared in this paper, it may be of interest to its author and the public to know that when the bus was not in condition to transport children to and from school, as was stated in their letter, the board member who was censured, used his own truck on many occasions to transport these children to school; To make an important correction permit me to write to add that the present board member's truck was not in any condition to transport children. He did make the statement to the children that the bus was broken down and that they had to wait. Turning around he noticed Mr. Douglas's milk driver had stopped and asked him if he wouldn't take the little children to the William Grace School, which was done. The letter was so spiteful and mean, I just couldn't let the public think any such unkind things of that sort and wanted them to know the truth. It is well known in our district, we use our car liberally to help in any way we can. If "A Parent" who persists in using "the language of Walter Winchell" and baseless insinuations of Walter Winchell he is very likely to meet his Al Johnson.

—A Board Member's Wife.

Replies to Mr. Lee

To the Editor:

In answer to the letter of Frank L. Lee my fortune has been told. So far all has come out true as was told.

Two men are going to make a lot of trouble.

Mr. Lee, if you had got married maybe you would feel different. I feel something to be proud of. My children got a good education, as it appears to me that if the roads had been built by the State, with less officers in power and the money used to a saving our taxes, could be no higher than 30 years ago. Mr. Lee asks if there is any country in more of a jam than Germany. What more highly

respected citizen do you want than Lewis Schroeder. Twas Herman and Henry Schroeder that stopped my horse in a runaway as I was in such a hurry to cast my first vote and voted at every election since except March 5, 1934.

I am American citizen, I hear of grand mother's parents were born in Holland. I hear of grand mother's parents born in Scotland, so I am also Scotch, Irish and suppose a slight strain of English and I am not sorry my wife's mother was born near Glasgow, Scotland. Now Mr. Lee read your Bible think of the future and forget the past.

Please print this and print my name.

CLARENCE UTLEY

On Education

To the Editor:

The Amendment Repeal does not mean that the Negro is going back to slavery, and the Indian to the War-Path.

They would not be wards of the Federal Government. Their Government would be left to the States or to the people.

Those that associate with me in Dist. No. 6 will bear me out when the thought of education, I usually say that I was a shy nibbler and was at the foot of the class, a guard against all comers; and when I landed on the "sidewalks of Detroit", and discovered how much I had thrust upon me, that I well could have paid to have forgotten that I have not been a savage sticker for School Education.

The storm point has been, and now is, the segregation of the Whites in the Schools, with good roads and buses, that ought not to be a difficult task.

Thomas Jefferson said that the best ruled People were those the least governed. And Abraham Lincoln showed us how we passed from personal property to Real Estate.

At the close of the revolution war our dollars were interchangeable with the Continental Dams. Alexander Hamilton is credited with bringing order out of confusion.

The States gave their vacant land over to the Government, and they sold it to settlers and speculators for fifty cents an acre. By President Andrew Jackson's time the Treasury and the bank were over flowing with money put in and it was his idea that the money belonged to the people, and

having the courage of his conviction he took the money out of the treasury and the banks and distributed it among the different States. The bank closed up, as all banks do when they are out of something to call money.

FRANK LEE,

CLARENCEVILLE
