

Husky Snails
Snails on exhibition at the London Zoo measure as much as eight inches in length, eat a lettuce a day and lay hard-shelled eggs as large as those of a pigeon.

Radium From Pitchblende
Radium is extracted from certain kinds of pitchblende which consist largely of uranium oxide. Eight tons of pitchblende will yield about a half-teaspoon of radium.

IN THE DAYS OF BUSTLES...

When women wore bustles, and even as recently as a dozen years ago, having to wear glasses was a calamity—as far as appearance went. Folks were sorry for you. But today, with modern FUL-VUES, glasses carefully selected often actually IMPROVE one's looks, adding distinction and charm.

Let us show you what we mean.

SEED LOANS AVAILABLE IN OAKLAND COUNTY

Application blanks for seed loans are now available at the office of the County Agricultural Agent, K. D. Bailey, Room 7, Post Office Building, Pontiac. Regulations for making emergency crop loans from the \$40,000,000 fund recently made available by Congress indicate that a farmer may obtain such a loan if he cannot qualify for credit elsewhere. If he has a justified need for credit and if he is cooperating with the production control program of the Agricultural Adjustment Administration, according to a statement made today by S. M. Garwood, Production Credit Commissioner of the Farm Credit Administration. The maximum amount which will be made available to any one farmer this year is \$250.00 and the minimum is \$25.00 according to the regulations. The interest rate will be 5 1/2 per cent per annum. Provisions for taking crop liens have been worked out under Mr. Crawford's direction and detailed regulations will be placed in the hands of local emergency crop loan committees within the near future. Before any farmer may secure a loan, however, he must first obtain a statement from the County Production Council where one exists, that he does not intend to increase his acreage or production in opposition to the Agricultural Adjustment program. Where a county production council has not been set up, the applicant will have to give satisfactory evidence that he is cooperating with the production control program of the Agriculture, Adjustment Administration, before his application for a loan will be considered. Applications for loans from \$25.00 to \$150.00 may be made directly to the emergency crop loan offices provided the applicants do not have sufficient security to obtain loans elsewhere. Where county councils have not been set up, Farm Credit Administration representatives will be instructed to make no loans to farmers who are planning to increase production. For the time being, according to Governor Myers, the various county emergency crop loan offices will handle the application for loans from the \$40,000,000 fund and these offices will be under the immediate direction of the Emergency Crop Loan division, which is placed under the supervision of the Production Credit Commissioner, S. M. Garwood, and the Governor. The plan for handling the loans has been improved so that applications should go through in about two weeks this year.

American Polo Ponies American polo ponies are usually about 15 hands high and weigh in the neighborhood of 1,000 pounds. In this type of horse a short back and big barrel are encouraged, since these give wind and endurance for a horse that must carry weight at speed. Polo ponies usually have some thoroughbred blood. A good cross is three-fourths or seven-eighths thoroughbred with some other stockier breed.

HIS HANDY ELECTRIC APPLIANCE COOKS A DINNER FOR 4... ALL AT ONCE!

It's hard to believe that this compact little cooking appliance will really do so much. Small enough to tuck away in a corner, it will still perform all the cooking operations possible on a small electric range. Plug it into any electric outlet, and it is ready for practically any cooking task. It will broil, boil, roast, fry, toast, steam and bake. The drawer is a combined broiling and baking section, as well as a toaster. The square and round top elements answer virtually all general cooking needs. The square element may also be used for toasting. If you live in a small home, light housekeeping rooms, or kitchenette apartment, or if you have a summer cottage, here is just the cooking device you need. With this handy appliance, you can cook a dinner for 4 persons all at one time—a roast, two vegetables, potatoes and gravy, and dessert. The model shown above is finished in attractive light green vitreous enamel, with black trim. See it at your nearest Detroit Edison office.

The "Kitchen Compact" comes complete with stand and cooking manuals shown here.
