Detroit is evidently recovering from its post-war delirium somebody shot a radio crozier in that city the other day.

## Mattresses Are Good to Sleep On

Yes, they are that, but they are mighty poor things to use for a bank. If you are still one who stuffs his valuable papers, insurance policies, and other valuables under the mattress, consider for a minute the possibility of total loss by fire or theft as against as little as \$2.75 a year for a SAFETY DEPOSIT BOX.

## Heat Wave Hits Farmington

Blistering days, sweltering nights. No relief from the weatherman.

But even though the weather man failed, there was welcome relief and not from an unexpected source, either.

The CLEANLINESS of Electric Cooking cannot be equalled BY ANY FUEL-BURNING STOVE

## DISCOVER THIS DIFFERENCE IN YOUR OWN KITCHEN

with one of these

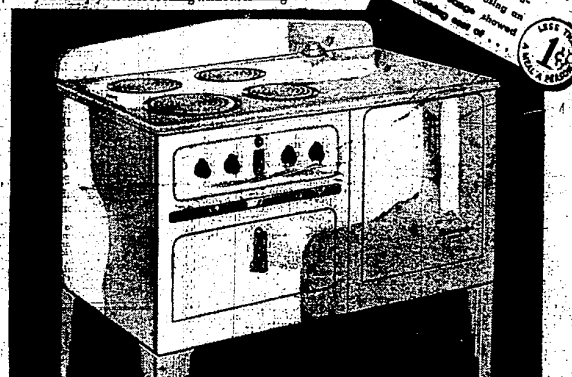

## TRIAL\* ELECTRIC RANGES

Any fuel-burning stove—no matter how much it looks like an electric range—is really employing the same cooking method used 50 years ago. A certain amount of smoke and soot due to the combustion of fuel is unavoidable. This soot must go somewhere, on kitchen walls and curtains and on your pots and pans.

An electric range is totally different. There is nothing but a glowing wire to furnish heat. Because there is no flame, there can be no smoke or soot or fumes. An electric range supplies heat in PURE, CONCENTRATED form—heat that is clean as sunlight. That is why your cooking utensils remain bright and shiny after constant use on an electric range, and why your kitchen walls and curtains stay clean so much longer.

\*We want you to discover in your own kitchen how clean electric cooking is. We want you to enjoy electric cooking without making

any investment or being under any obligation. So we have arranged a special trial offer. We will install an electric range in your kitchen without initial charge, and let you use it for six months removing it without charge if you do not like it. During this trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Since this trial plan was begun a short time ago, over 2500 of our customers have taken advantage of the offer. Send in your application for a trial range today!

## "TRY IT YOURSELF MR. HUSBAND!"

You try doing the housework with a lot of cold, clammy water. You try fooling around waiting for water to heat—depending on furnace coils after furnace weather (do you know how much fuel they waste in the winter, too?)

## DO HUSBANDS KNOW?

Husbands know what comfort there is in an ever-ready supply of hot water for shaving and the bath at any and all hours. But most husbands don't realize what such hot water means in running the home. Instant hot water for the dishes, for baby's bath, for the laundry, for hurrying cooking, for housecleaning, for the hundred and one things that are a regular part of every woman's busy day.

TRY IT YOURSELF—THEN YOU'LL KNOW WHAT A THRILL IS IN THIS
