President Harrison Was

Eager Student of Bible

"Tippecanoe" Harrison never united with any church, but his predilections were for the Episcopal church. When he became President he bought a Bible and a prayer book, and these were used at his funeral by the rector of St. John's Episcopal church, says the Washington Post. Concerning his religious faith the National Intelligencer said, two days after his death:

"It is known that, for many years past, General Harrison had become more and more impressed with religious feelings, always treating serious things seriously, and showing himself mindful of his future accountability. A member of his family has stated that, for many months past, he had never omitted the reading of the Scriptures every night before retiring to rest, however harassed by company, or worn down by fatigue. On Monday, the third day of his indisposition, and before he felt himself in any particular danger, he declared to those around him that he had long been deeply impressed with the truths of the Christian religion, and regretted that he had not connected himself with the church as a communicant."

ELECTRIC COOKING for yourself
on the "TRIAL PLAN"

YOU have heard your friends who cook with an electric range say: (1) Electric cooking is COOL—it does not heat up the kitchen. (2) Electric cooking is CLEAN—with only pure heat from a glowing wire. (3) Electric cooking SEALS-IN natural flavors in foods—meats and vegetables cook to melting tenderness in their own juices. (4) Electric cooking is HEALTHFUL—precious minerals and important food values are retained, instead of being lost in steam or poured down the sink with excess water. We want you to discover these facts for yourself. We want you to prove for yourself that you can enjoy these advantages of electric cooking at a cost well within your household budget. This is our trial offer:

We will install an electric range in your kitchen without initial charge, and let you use it for six months, removing it without charge if you do not like it. During this trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide

to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Since this trial plan was begun a short time ago, over 3200 of our customers have taken advantage of the offer. Send in your application for a trial range today!

"TRY IT YOURSELF MR. HUSBAND!"

You try doing the housework with a lot of cold, clammy water. You try fooling around waiting for water to heat—depending on furnace coils after furnace weather (do you know how much fuel they waste in the winter, too?)

DO HUSBANDS KNOW?

Husbands know what comfort there is in an ever-ready supply of hot water for shaving and the bath at any and all hours. But most husbands don't realize what such hot water means in running the home. Instant hot water for the dishes, for baby's bath, for the laundry, for hurrying cooking, for housecleaning, for the hundred and one things that are a regular part of every woman's busy day.
