Will Johnny Be Late to School?

Getting the children away to school on time is now an added responsibility of the household.

The danger of the youngsters being late will be greatly lessened if your clocks and watches are accurate. Bring them to an experienced watchmaker and be sure the youngsters are on time.

Rolling by Ear

The origin of the word "Reader," as applied to old-time cigar factories (and in some American cities the practice is still observed), dates back to a curious custom. A man ascended a raised platform in the shop and read aloud to the tobacco-leaf rollers the news of the day. The reason for doing this was odd. Most of the cigar-makers were Puerto Ricans and Cubans, well known for their gesticulatory method of speaking, especially when excited. Now, the best cigars require close attention in the rolling process. The bosses knew this, and also the workers' propensities for talking. They therefore conceived the idea of having news read to the men to keep them from talking—and thus take their hands away from the business of making cigars. It is said that Samuel Gompers was once a reader in a New York cigar factory.—Washington Post.
