

Heligoland, German Isle in the North sea, is treeless, but not birdless: Millions of migratory birds rest on the rocks. A chance in the wind and they're all gone. Because of its strategic naval defenses, Heligoland was once called the Gibraltar of the North.

Farmington Lodge No. 151, F. & A. M. Meets second Monday of each month. John H. Altama, W. M. Jas. L. Hogle, secy.

WORK TO CONTINUE
Another six months of CCC development work have been assured for seven of the nine camps operating in state parks.
According to word received by the Parks Division, Department of Conservation, the federal Emergency Conservation Work administration, Washington, D. C., has authorized the continuance of the seven camps to April 1, 1935.
Consult the Professional Directory on page two when you require a doctor's services.

Mrs. Charles Rubert spent Wednesday in Detroit visiting friends.

Mrs. Kenyon entertained a group of friends at a card party at her home on Grand River avenue Wednesday evening.

Alterations being completed, dedicatory services will be held Sunday at 10:30 and 2:30 o'clock at the Clarenceville M. E. Church. Rev. Meldon E. Crawford succeeds Rev. V. O. Lyon as pastor.

VISIBLE 35 MILES

On a clear day objects many miles distant may be distinguished from the top of a fire tower. Lawrence Reddy of the Kingsley tower, Grand Traverse county, recently saw with the aid of glasses the Pickering Lake and Mancelona towers 35 miles away, according to the Department of Conservation.

Record Of Wild Life Is Kept By Foresters

Members of the forest reconnaissance crew at Camp Au Sable, Civilian Conservation corps, near Grayling, are keeping a record of the various forms of wild life observed in the woods, according to a report to the Forestry Division, Department of Conservation.

Early this summer the men saw a large black bear and recently were startled by the sight of an albino deer.

Don't Go Through Another Winter With That Wasteful FURNACE COIL

Many women tolerate the bother and inadequate supply of warmed water from various makeshift means in summer because they believe their furnace coil gives them FREE hot water in winter. This is an expensive notion because engineering tests show one out of every five shovelfuls of fuel burned in a coil-equipped furnace is used to heat the coil. What is 20% of your winter's fuel bill? Can you afford "coil-heated" water?

This trial plan PUTS YOU UNDER NO OBLIGATION

TO BUY AN Electric RANGE

Suppose you have taken advantage of this Trial Plan and placed one of our electric ranges in your kitchen. Suppose you have cooked-on it every day, used it steadily for preparing all your meals, and found that for some reason you did not like it. What then? ... You simply call any Detroit Edison office. In a very short time our men will call for the range and remove it at our expense, with no further inconvenience to you. You will have tried electric cooking without investing a penny—and that is the purpose of our Trial Plan, EVEN THOUGH YOU DO NOT KEEP THE RANGE. You

are placed under no obligation whatever.

Here are the details of this easy way to try an electric range. We will install an electric range in your kitchen without initial charge, and let you use it for six months, removing it without charge if you do not like it. During this trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Send in your application for a trial range today!

THE DETROIT EDISON COMPANY

A study of one thousand families using an electric range showed a cooking cost of
