Original Design In Reavette House

(Continued from page one)

The temporary front porch with a concrete structure decorated with a black wrought iron railing. An addition of 12 feet will be made to the first story. The roof of the new part will be flat so that it can be used as a sun-deck.

The walls of the interior of the house are painted cream color. Cupboard, above and on either side of the kitchen sink have been built with the idea of conserving space and of making things handy for Mrs. Reavette.

Mr. Reavette mentioned that he had changed the stairs ascending from the living room three times before he and his wife were satisfied.

While the house was under construction there was no road leading directly to it. Consequently, Mr. and Mrs. Reavette were obliged to carry the materials 600 feet to the place where they were to be used. However, they consider the time and the effort they have put into the building of their home as nothing in comparison to the satisfaction they have in knowing it is entirely of their own making. This attitude is brought out in one of Mr. Reavette's ads: "Cheerful Surroundings Make The Task

Lighter."

Home Made Electricity

Installed in the garage, which is also home made, is an automatic electric plant which furnishes electricity for lighting as well as for the various motors Mr. Reavette uses in his work.

In addition to the house and garage, Mr. Reavette has built a large trailer and a tractor, the latter made from an old automobile. A well 26 feet deep, a rain water cistern, 6 x 8 x 6 feet, and a walk made of concrete field stones are other improvements which the Reavettes have made on their property.

Born In England
Mr. Reavette was born in England. He and his wife came to Canada in 1913 where Mr. Reavette enlisted with the Canadian troops and served three years during the war.

In 1923 the couple moved to Detroit.

Mr. Reavette has done all types of interior and exterior painting and decorating for the past 22 years, having worked for several Detroit establishments.

The first prize, a Chevrolet car, to be awarded at the close of the Celebration, extended from Saturday, August 31 through Monday, September 1, will be on display in front of the Chevrolet salesroom from now until the winner has been chosen from the numbers on the tickets which are sold. The tickets will be raffled along with 30 other valuable prizes.

Many Events Planned
Prizes will also be awarded to the winners of the various games and athletic events which will be staged in the grove, extending from Grand River behind the police booth to Farmington Road. Here the celebration will be held. Stands for spectators as well as various concessions, consisting of refreshments, games, booths and the like, will be erected for the comfort and entertainment of those who attend.

Free movies and vaudeville acts are also planned to make this year's Gala Homecoming celebration even better than the one held in 1930, which was considered by many as the best ever staged by the Legion.

The Legion is being assisted in its plans for Gala Day by the Exchange Club. A few days before the Celebration opens, handbills and placards, on which will be printed the entire program for each day, will be distributed throughout Farmington and vicinity.
