**BEAUTY HINTS**  
(By Hazelle)

The correct way to apply dry rouge: Start at the temples and pat it on in a triangle form toward the ear. You notice anyone with natural coloring that is the way the color runs in the cheeks. Take the back of a clean puff, or a piece of cleansing tissue, and blend it lightly toward the ear. A paste rouge is applied with the fingers high on the cheek bones in the same manner, only in a smaller triangle. Then take a clean piece of absorbent cotton and blend it toward the ear. If your skin is very dry, apply a small amount of cleansing cream before you apply the rouge. Apply dry rouge always over your face powder, and paste rouge before you powder.

Blondes should use a rouge very pale in color. If your skin is white, use more of an orange rouge. A pale skin requires light pink rouge. The same applies for gray hair. Brunettes should use a brilliant or raspberry rouge, while tans should use a rouge medium in color.

Try to match your rouge in lipstick. Apply lipstick lightly, working well into the mouth and lightly toward the corners so as not to accentuate the size of your mouth.

Next week I will deal with powder bases and astringents. I hope all of you purchased one of those powder brushes I mentioned last week. Identify them by a white handle. You will save money on powder by using one of these brushes. I shall be happy to answer your beauty problems.

Q. I am very nervous. What can I do?  
A. I am afraid no one can give you better advice than your doctor. You must build up your health and try to get your nerves under control.

**300 Days of Hall**  
Hall stores sometimes last for three weeks in the region of Onpe Horn. In some years the number of stormy days of this type total 300.

**Canes Are Grown**  
Wood for walking sticks and umbrellas is grown like corn and oats in forests of small saplings which take about four years to reach the required size.

**Notice to Merchants and Others Interested:**

We are continually receiving reports of worthless checks being passed on merchants, gas stations, etc., usually by strangers who make a small purchase and receive the balance in cash. Several days elapse before these checks are returned marked "No account" or "Insufficient funds" and are charged back to the depositor's account.

The usual result is a 100% loss to the victim.

We desire to pass this information on to our customers with the warning, "DO NOT CASH CHECKS FOR STRANGERS."

**Anchors Aweigh -in Michigan**

The vacation you are planning is almost sure to include, as one of its attractive features, the flash of sunlight on water—a swimming pool, a stream that invites your rod and line, a lake for sailing or motor-boating.

For pleasures of this kind, no part of the globe is more bountifully equipped than your native State of Michigan. Here are some of the finest fishing streams in America; here are lakes of unsurpassed variety—five thousand lakes of every shape and size.

You can set up your camp on a pine-shaded bank and swim in a lake no larger than a private pool. Or you can weigh anchor in one like an inland sea, letting your sail or outboard motor carry you away from the workaday world—out into a vast expanse of flashing silver and running white-caps.

In addition to water-sports, Michigan provides almost everything the pleasure-bent vacationist can desire: Hundreds of miles of highways that increase the joys of touring by automobile; varied scenery; invigorating climate; an endless choice of golf courses.

Spend your own vacation in Michigan. Urge its excellent advantages upon your vacationing friends in neighboring states. By doing so you will increase the pleasure of their holiday. In addition, you will help to promote the popularity and prosperity of your native State.

It is for the purpose of doing our share in this promotion that this series of advertisements is being published by the Michigan Bell Telephone Company, a Michigan organization that prospers only as the citizens of Michigan prosper.

**"Era of Good Feeling"**  
The "Era of Good Feeling" in American history coincided with the administration of President Monroe, 1817-1825. During that period party discussions practically disappeared, and in the election of 1820 Monroe received all but one of the electoral votes. The elector who cast his vote against Monroe said he did so in order that the latter man could be said to stand in the shoes of George Washington.

**Use of Anesthetics**  
Very large numbers of people may be affected by a single medical discovery. Litchfield and Carter introduced the gas, ethylene, as an anesthetic for surgical patients in 1823. The number of people who have taken it since that time now exceeds a million.

"I will try an electric range in my own kitchen on this TRIAL PLAN!"

There is only one way to discover the superiority of electric cooking and that is actually to TRY an electric range for yourself. There is no better time to start using a range than NOW—during the summer months. Why put off any longer enjoying electric cooking, when you can install a range in your own kitchen on this Trial Plan and use it without obligation? Cook all your favorite recipes on it... test it in every way you may have about it... then decide whether or not you want to keep it.

Here are the details of the Trial Plan: We will install an electric range in your kitchen without initial charge, so that you may give it a thorough trial. During this trial period you simply pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Send in your application for a trial range today!

A study of one thousand families using an electric range showed a cooking cost of **LESS THAN 1¢ PER POUND**
