PREPARE a whole breakfast—a man's breakfast—in your electric oven in twenty minutes! Muffins, broiled bacon and eggs can all be prepared at the same time, and served together, deliciously hot and appetizing. Enhanced flavor, like that of old English grilled bacon, results from electric broiling. The bacon is evenly browned and keeps its shape—it does not shrivel into unmanageable curlicues. Even the eggs taste better than when fried, thanks to the "flavor conserving" heat of the electric oven, which does not cook to toughness but cooks thoroughly and gently. Finally, electrically baked muffins are delightfully flaky and tempting—a treat to top off any breakfast! [Here is a meal after a man's heart—and with an electric range, it takes only 20 minutes to prepare. Wouldn't you like to try it—in your own kitchen—on a Trial Electric Range?
