An Odd Sight is India
One of the world's oddest sights
is at the annual festival in Puri, India, when the god Vishnu takes his
annual one-mile ride along Paradise annual one-mile ride atong l'araules noud, la order to solicit pity and alms, hundreds of holy men-sach equipped with a accret breathing tube-bury themselves along both sides of this highway, no part of them showing above the ground accept their upraised arms.—Collier's Weekly.

CAPITAL CITY LEADS IN TELEPHONE RATIO

Washington Outranks the World on a Basis of Telephones in Proportion to Population

Washington, D. C., now takes first place among large cities in take phone development, having a greater number of telephones in peoportion to population than any other large city, not only in the United States but in the world, according to the most recent available satisfation. San Francisco, which formerly half that honor, is now in second place, but by a scant margin.

Washington, D. C., now takes first half and the control of the con

this honor, is now in second place, but by a scant Burgin.

Washington has 18.11 telephones for each 100 of population. San Francisco has a development of 18.00, and Stockholm, flwden, is in third place with \$1.95. Except for Slockholm, and Vancouver, B. C., which holds fifth place, no large foreign city has a higher telephone development than the first atteen ranking lig cities of the United States.

There are \$25 cities or telephone scrhange areas in the United States with more than 300,000 and babtiants, and in these cities there is an average of more than 18 telephones per 100 of population. The superiority of American telephone development of some of the principal capital cities of the world.

principal capital cities of the world.
For example:
Berlin ...10.35 Paris ...14.13
Brussels .10.73 Rome ...758
London ...207 Toklo ...3.48
Madrid ... 5.77 Visnam ...3.39
In absolute number of telephones
the United States cities are far
shead of foreign cities. New Tork
City has nearly as many telephones
as Berlin London, and Paris combined and actually more telephones than
the entire continent of Asia.
Chicago has more telephones than
sil of South and Central America,
south of the Rio Grande, and Los
Angeles has, more than the entire

Revolutionary Reijcs From The Philadolphia
When Benedict Arnold's Fleet fought the British on Lake Champian on October 11, 1716, the American sloop-of-war Philadelphia sank about an hour after the fighting ceased for the day. On August with 1915, 1925, the citzens of Iurillaction, Vermont, saw the Philadelphia brought to the sufface of the lake,

phia to Shelbourne Harbor, ther truck it of Burlington where it will find a final resting place. Among the relies that have beer found by the salvagers were foun canton, peacer uniform buttons. Identifying the regiments of the sank about an hour after the fight. Identifying the regiments of im-ling ceased for the day. On August warrs, and some human teet! 0th, 1935, the clizons of Burlinsch, that were well preserved durint brought to the surface of the lake, been burled on the bottom of the 14 is planned to tow the Philadel-lake.

Historic Round-the-World Telephone Has Been Given to National Museum

Or. Charles G. Abbot, secretary of the Smithsonian Institution in Washington, D. G., signs a formal receipt for the steephone over which President Walter S. Glifford of the American Telephone and Telegraph Company talked around the world on April 25, 1935, and which has been presented to the Washington mussum. Among the interested observers is Mrs. Elsle Dell Grosvenor, daughter of Alexander Graham Bell, Inventor of the talenboar.

Immediately after the aroundship of the American Belgione Conversation between Freeldent Walter S. Glütord, the American Telephone and Telegraph Company, and Theodore G. Miller, Vice President in charge of that company's Long Lines Department, which took piaco on April Long Lines Department, which took piaco on April Long Lines Department, which took piaco on April Long Lines and the presentation took place on May 16.

Very appropriately, Mrs. Else May Bell Groverond, daughter of Aloxander Graham Bill, inventor of Aloxander Graham Control of the National the Regents' Holes Construction of the Control of the Control of the Mational Congraphic Society, were present in the Regents' Holes Construction of the Control of the Control
