BeeSwax

It is common mistake to suppose that honeybees collect wax. Beeswax is a writer in the Indianapolis News. It is a secretion of the bees in the form of tiny scales which appear between the segments on the under side of the abdomen. The notion that bees collect wax no doubt arose from the fact that many people confuse wax with the pollen that bees collect and carry to the hive. The main material attacking bees is the head and legs. This pollen is mixed with honey and converted into bee bread for the young bees.

El Dorado

El Dorado was a region on Lake Maracaibo, in South America. It was a noted mining and trading center. The name of the town was given to the city of El Dorado, in the state of Michigan, because of its similarity to the name of the lake.
