Lighting of Dial Fire

The lighting of the Dial Fire in England is always a great event, with children dancing about the fire and their elders dancing the old English dances on the green. In Finland the peasants used to drive to centers where they dance and sing and leap over the bonfires till long after midnight.

Compliments usually make people feel good and think well of the speaker, be he truthful or not.

First Aid Treatment Taught Thousands By Red Cross

More than 187,000 certificates showing completion of first aid courses were issued last year by the Red Cross. This shows a gain of 64,000 certificates over the previous year. Approximately 64,200 boys in C.C.C. camps throughout the country passed first aid tests. Since the Red Cross first entered the field of first aid teaching, being one of the first organizations in the world to do so, almost one million persons have been trained in handling emergency treatment.

The annual report of the Red Cross further reveals that more than 327,000 copies of the Red Cross First Aid Handbook have been sold at home and abroad.

In the year 1794 a French cavalry unit won a naval battle. The Dutch Fleet became ice-bound in the Zuider Zee. When the French cavalry heard of this they galloped across the ice, surrounded and seized the fleet.

Try an Enterprise Liner

Storks Have Four-Hour Day Members of the Munich Bird Society of Munich, Germany, discovered that when storks fly south to escape the European winter they travel more than 125 miles a day. They fly only four hours a day, spending the other 20 in feeding, resting and sleeping. They average over thirty miles an hour in their flight of thousands of miles over the work airways.

Much Borrowed Word

The word "apricot" comes to us by a strange descent from the Latin meaning, precocious, early ripe. The Greeks borrowed it from the Latin, the Arabic from the Greek, the Portuguese from the Arabic, the French from the Portuguese and the English from the French. It then, after its travels, emerged as "apricot," and finally took the present form.

Brook trout that spawned when less than nine months old have been observed at the Paris and Harrietta State Fish hatcheries. It had been assumed that trout did not become sexually mature until two years old.

Nyassaland

Nyassaland is on Lake Nyasa east of northern Rhodesia. A large tongue of this country extends into Mozambique. It is about the area of the state of Louisiana. It is the least known section of Africa.

27 Varieties OF DEPOSITS

Through the receiving tellers' windows at the bank, pass 27 varieties of deposits—checks, money-orders, drafts, certificates-of-deposit, discounted notes, etc.

Depositors consider all these forms of exchange as money and the bank accepts them as cash. But they are not cash. The bank has to make collection and turn them into cash through a complicated "clearing" system between the banks of the country, maintained at great expense.

Even cash or currency costs the bank in handling expense and insurance.

Your knowledge of these facts and your cooperation are necessary to properly maintain these indispensable facilities.

A General Motors Vehicle

More beautiful than ever and BUILT TO LAST 100,000 MILES!

ALL THAT'S BEST OF ALL THAT'S NEW

1. Solid Steel "Turret-Top" Bodies by Fisher
2. Improved triple-sealed hydraulic brakes with new chrome-nickel alloy drums
3. Enclosed Knee-Action on "S" and De Luxe "S"
4. Smoothest "S" and "S" cylinder engines with silver-alloy bearings and full-pressure mated lubrication
5. Electroplated light-weight nickel-alloy pistons
6. All-silent Synchro-Mesh transmission
7. Simplified starting with automatic choke
8. Concealed luggage and spare tire compartment
9. New full-length water-jacketed cylinders
10. Even stronger double K-Y frame

YES, the new Pontiacs are actually even more beautiful than before, with a new front-end, new headlight mounting, a different hood, different running boards, and a decidedly different rear-end treatment. And that's only the outside story of the new Pontiacs. The inside story is even more remarkable. The 1936 Silver Streaks are built to last 100,000 miles.

The brakes are triple-sealed hydraulics with new warp-proofed drums of fused iron on steel and milled linings. The bodies are solid steel "Turret-Top" Fisher Bodies with No-Draft Ventilation, insulated roofs, and built-in luggage and spare tire compartments. Clutch, brakes, and engines are even smoother, while the Synchro-Mesh Transmission is silent in every speed. And the even more economical engines feature cooling and lubricating systems that are models for the entire industry!

These, of course, are merely the highlights of what awaits you at your Pontiac dealer. Be sure to get the rest of the story, including the startling facts about Pontiac's low prices.

PONTIAC MOTOR COMPANY, PONTIAC, MICHIGAN
