Chevrolet Announces New Trucks For 1936

New Chevrolet trucks for 1936, comprising a wide range of standard body types mounted on half-ton and 1½-ton chassis, which carry numerous advances in engineering and improvements in operation, are announced by Chevrolet Motor Company for introduction in January.

Design changes, including a restyling of the sheet metal and the adoption of a coupe type cab with solid steel top, have enhanced the appearance of the 1936 models. In the chassis, the most noteworthy development is the adoption of hydraulic brake operation in conjunction with improved brake mechanisms at the wheels. Engine improvements include increased power, better fuel and oil economy, and greater durability.

TO GUESTS?

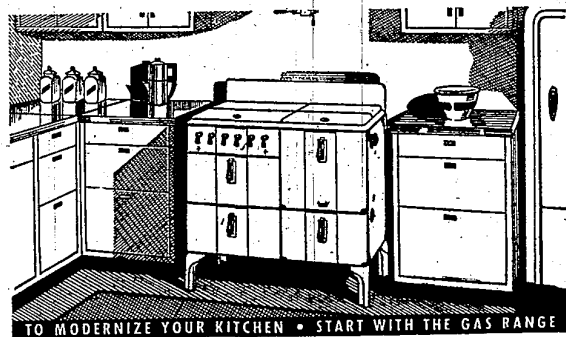

Today, the kitchen is as important as any other room in the home. Perhaps no other room has so much to do with creating a favorable impression of the house.

And guests have a way, these days, of making themselves at home in the kitchen. No kitchen is safe from sudden social invasions at any hour of day or night.

Are you proud of your kitchen? Is it a room that you thrill to show to guests? If not, start today to modernize it. There never was a better time; it has never been so easy.

One thing at a time is the sensible way to make these changes. And the natural beginning is to replace the old stove with a modern gas range. No other home improvement will give you so much pleasure.

Modern gas ranges have all the advanced features that simplify cooking and baking tasks. You'll be astonished at the way this one change will cheer up the whole room. Many sizes, styles, prices to choose from.

TO MODERNIZE YOUR KITCHEN • START WITH THE GAS RANGE

Free Trial

We want you to try this range and see for yourself the many economies it will bring. Better oven design means real food saving in baking, roasting, broiling—certain results without waste, goodness cooked in less time, out—every advantage a real saving. And to easy for YOU to have now.

GEORGE RECTOR* Says:

MR. RECTOR IS A MEMBER OF THE

KITCHEN STAFF

"There used to be a slo, an (maybe there still is)—'Let George do it,' and I suppose that is how I got into this business of converting meats and vegetables from their natural state into a semblance of a well-cooked meal. But now that we're on the subject, let's settle once and for all the age-old question—'What is the best way of cooking: electrically or otherwise?'"

"I've always maintained that a good cook can turn out a masterpiece with nothing more to aid him—or her—than a primitive wood fire. But there's no denying the helpfulness of the electric cook-stove, especially in its state of perfection today. * * * I think it is perfectly obvious that no man or woman is going to march out in the woods and build a fire, labor with crude cooking utensils and struggle along under other handicaps just to show that he can do it—at least, not every day in the week.

"I like my civilized comforts and conveniences as much as anybody. And also—to get colloquial—I can take it," as the saying goes regarding punishment. But cooking—to my way of thinking—should be a pleasure. And electric cooking, in view of the present advanced state of the art, multiplies that pleasure a hundredfold. Please understand, this is merely my own preference. Others may have their own pet cooking method, and that is all right with me!"
