## Report Blames Chicago Police For Dem Riots

WASHINGTON -- The clashes between demonstrators and police during the Chicago Democratic National Convention were "what can only be called a police riot," according to a report from the National Commission on Violence.

Although the report said the demonstrators provoked police with obscene remarks, and hurled rocks, sticks and other things at them, "The weight of violence was overwhelmingly on the side of the police."

"The loss of control and discipline can perhaps be understood, but not condoned," the report said.

MARSHALL -- Two more families were forced to evacuate their homes as eruptions of potentially explosive natural gas continued to bubble in a swampy area in Marshall Township. The gas has been surging since last week and experts are trying to determine whether the leaks are from natural causes or linked to a nearby oil drilling site.

LANSING -- Michigan's new disciplinary agency for judges, the Judicial Tenure Commission, may be ready to begin its watchdog role by this spring.

The nine-member commission will have the power to censure, suspend, fire, or retire a judge for physical, mental, or emotional disability, misconduct, drunkenness or other causes.

BOSTON -- Researchers at the Massachusetts Eye and Ear Infirmary think they have found a detection device which will lower the rate of larynx cancer from 50 to 10 per cent.

## News Round Up

The device, which uses a microphone and a small computer to analyze what is recorded when the patient speaks, will be able to detect between normalities and abnormalities. The abnormalities will be spotted long before symptoms occur.

NEW YORK -- Sen. Edward W. Brooke (R, Mass.), the first Negro elected to the U.S. Senate since Reconstruction, turned down an offer by President-elect Richard M. Nixon to be a part of his cabinet.

Although it was not disclosed which position the Senator had been offered, many observers believe it was the attorney general spot since Brooke had been an effective attorney general at the state level, and Nixon had lashed out repeatedly at Atty. Gen. Ramsey Clark during his campaign.

YOUNGSTOWN -- Children and teachers in the Youngstown School System have been given an unexpected vacation as the schools closed until Jan. 2 because of lack of funds.

Without the added 12-mill levy which was rejected by voters on Nov. 5, the schools were forced to close. Voters have turned down millage votes for operating expenses six times in two years.

The matter of homework was left to the teacher's discretion since there was no general administrative order about the matter. Many parents insisted their children bring home books to study during the layoff.

An Ohio employment agency is trying to help teachers and other pupils find interim jobs although many Youngstown residents are already on layoff because of two-month-old strikes at two factories.

WASHINGTON -- Sen. Philip A. Hart (D, Mich.) and the antitrust subcommittee have calculated that little-noticed price increases for auto replacement parts have cost consumers \$1 billion since November 1957.

The scheduled hearings on the matter will explore the repairing of parts, the quality of available service and flat-rate manuals which specify the time for mechanics to do each job. Repair expenses are about three times the total of the price increases for the 1959 cars.

EAST LANSING -- Michigan State University will purchase no more California-grown grapes for the MSU food stores, in support of the boycott of California table grapes.

"We have been buying them, but we just decided we wouldn't buy anymore," Robert Hergen, manager of the MSU food stores said. The university purchases about \$75 worth of grapes weekly. The university purchases about \$75 worth of grapes weekly.

LANSING -- The State Board of Education will support a bill in the 1969 Legislature which would empower the educational telecommunications system in Michigan to determine general policy in educational radio television for elementary through university levels.

The Board would act as a central clearing house for broadcast license applications, handle contracts for obtaining equipment and would be in charge of administering any federal funds allocated for the communications system.

LANSING -- Gov. George Romney has appointed a state crime commission which will deal with all areas of crime, but will stress the combat of violent and evasive methods by crime leaders.

The Governor will be chairman of the new commission which will have about 28 members, including private citizens and various public officials. The federal law involved provides matching grants to states for their anti-crime programs.

WASHINGTON -- Michigan Republicans have staked a claim to the single vacancy coming up on the House Ways and Means Committee, contending tradition and equity are on their side.

Reps. James Harvey, Saginaw, and Guy Vander Jagt, Cadillac, have said they want the seat. But should Rep. Charles E. Chamberlain, East Lansing, decide to try for the post, his seniority would give him preference over both Harvey and Vander Jagt.
