We believe you will share our pride in the comparison of statements below, because it is you who have made it possible. Herewith are the figures for May 19, 1934, and for May 12, 1936:

To put it in just two lines -- May 19, 1934, \$62,500, and on May 12, 1936, \$635,574.11-- meaning the size of this bank has multiplied 10 times in two years, something for all of Farmington to feel proud of. Especially worthy of note to you as interested participants in the success of this institution will be the increase in the undivided profit account, which was \$2,500.00 in 1934 and \$9,193.45 on May 12, 1936 -- figures which again are a credit to the community as well as to the management, because they are made possible by your whole-hearted support of the management of Farmington's financial institution.

That you may know that the growth is continual and consistent, may we refer to the fact that one year ago, on May 14, 1935, the figure stood at \$498,789.37, an increase during the past year of almost 30 per cent.
