# The Easiest Driving FORD Ever Built

The Ford V-8 engine gives a smooth flow of power over a wide speed range. This cuts down gear-shifting. But when gear-shifting is necessary, it is more convenient. The lever travels a shorter distance.

A new 17-to-1 steering gear ratio makes steering easier, too. The Ford clutch takes surprisingly little effort. Ford Super-Safety Brakes stop the car quickly and surely with slight pedal pressure.

## Facts About the Telephone

Ecuador is the only country in South America that has no dial telephones.

More than 25,000,000 copies of telephone directories are distributed annually to Bell System subscribers.

New York's first telephone directory which carried telephone numbers was published in 1880. It contained 2,800 listings.

The world's first radio telephone service, between Los Angeles and Santa Catalina Island, Cal., was opened to the public on July 16, 1920. It was subsequently replaced by a submarine telephone cable.

During the height of the floods of last spring, telephone calls between Springfield and Northampton, Mass., which cost 16 cents, were routed via Boston, New York and Albany, over Hans or through the territories of four Bell System telephone companies.

# Tax-payers:

## Your 2nd Payment on 10-Year Plan is Due Sept. 1st

JUST a year ago your state and county officials were engaged in a great drive to encourage the property-owners of Michigan to clear their tax records.

It is estimated that over half a million tax-payers took advantage of the special concessions that were made for their benefit.

Back taxes for 1932 and prior years were put on a ten-year plan, and the first tenth-part was paid. Now the second part, again ten per cent, is due.

You must now make this second payment, with a 4% interest charge, in order to keep the advantage you won by coming under the ten-year plan.

Note:

If you have not yet paid your back taxes for 1932 and prior years on the 10-Year Plan there is still time for you to do so.

If, for any reason, you failed to put your taxes for 1932 and prior years on the 10-year plan last year, you can still do so by making the first two payments with interest at 4%—plus a small additional charge on the payment you missed last year.
