Truscon

Tru-Flo

Self-Leveling Flat

TRUSCON Tru-flo used in conjunction with TRUSCON Tru-seal is the perfect combination two-coat system for new plaster or already painted plaster interiors.

Tru-flo supplies the demand for a wall and ceiling paint that can be applied to an absolutely uniform finish without "laps" or brush marks. It is a self-leveling flat.

When used on new work, in conjunction with Tru-seal as a first coat--a complete job of painting may be done in one day, consisting of a first coat of Tru-seal and a finish coat of Tru-flo applied 4 to 6 hours later; and the room used that same evening.

Tru-flo, in addition to its remarkable flowing qualities, presents a very dense and opaque finish. Although designed as a flat it is a much more washable coating than ordinary flat paint.

Tru-flo is carried in ten beautiful shades. Color charts are available.
