Truscon Tru-Flo Self-Leveling Flat

TRUSCON Tru-flo used in conjunction with TRUSCON Tru-seal is the perfect combination two-coat system for new plaster or already painted plaster interiors.

Tru-flo supplies the demand for a wall and ceiling paint that can be applied to an absolutely uniform finish without "laps" or brush marks. It is a self-leveling flat.

When used on new work, in conjunction with Tru-seal as a first coat---a complete job of painting may be done in one day, consisting of a first coat of Tru-seal and a finish coat of Tru-flo applied 4 to 6 hours later; and the room used that same evening.

Tru-flo, in addition to its remarkable flowing qualities, presents a very dense and opaque finish. Although designed as a flat it is a much more washable coating than ordinary flat paint.

Tru-flo is carried in ten beautiful shades. Color charts are available.

BIRCH'S PONY ENJOYS AIR TRIP

Princess, the Vanishing Pony, will be in Northville when she will assist her master, Birch the Famous Magician, in entertaining the children of the city, those who are youthful in spirit as well as those who are youthful in age, during the engagement at The Penniman-Alten Theater.

Princess is one actress who enjoys her work and who is never temperamental. She takes life philosophically and displays little or no vanity. She likes children and a crowd of youngsters may always be seen gathered about her as she takes her daily sightseeing tour through the city.

The cooler months of the year are working months for Princess for it is then that she is called upon to make her appearance at each Birch performance where she is hosted in mid-air, then disappears at the snap of her master's fingers.

It might also be said that Princess is the only living actress of note who has never sought publicity. She has never been known to give an interview to the newspapers, and has never voluntarily been quoted or had her photograph taken. She comes from the Dutch (West) Indies, is four years old, and weighs one hundred and fifty pounds.
