The SIGHT METER will tell you how this 3-light lamp ES from other lamps! Have you ever checked the lighting in your home with a Sight Meter? This little instrument will tell you some startling things about your floor and table lamps, about the lighting in your various rooms. And it will show you plainly why the new 3-light lamp is far superior to other lamps. It will show you, for example, that the lamp provides 25 to 30 footcandles of light (your present lamps probably furnish 5 to 10). This is the amount of illumination needed to safeguard eyesight, to assure easy, comfortable seeing for ordinary tasks, for reading, wing, sewing, etc. The Sight Meter will show you that this new lamp provides roomurde light a pleasant, uniform illumination, without larsh shadows or sharp contrasts. Let us measure your lighting with a Sight Meter: It is part of your service, and there is no charge or offigation. And—at your first opportunity—see the new 3-light lamps on display. You will wand one of the attractive new styles for your living room! SIX DEGREES OF LIGHT The new 3-light lamps are available in a wide selec-tion of attractive styles—
